TERRIBLE SLAUGHTER OF TURKS REPORTED

Make Breastworks of Dead Bodies In Trying to Stop Servian Advance

TURKS IN WILD RETREAT

6,000 Corpses Found on Road From Kumanova and Uskup Are Burned With Petroleum

ADVANDE ON CONSTANTINOPLE

LONDON, OCT. 29.—The long awaited battle which will decide the fate of Turkey now is being fought. The army under Nasim Pasha, minister of war and commander-in-chief, is engaged, and according to Constantinople official despatches, the operations are favorable to the Ottomans. The despatches, however, do not indicate where the chief action is taking place or how the opposing forces compare.

It is Turkey's last chance to retrieve an almost hopeless campaign. Nasim Pasha is fighting with his back to the wall; his communications have been cut, and it is impossible for him to get reinforcements or supplies.

In Constantinople the feeling of confidence is reviving. It is believed that the war minister has at last assumed the offensive. But this is by no means certain as the battle may have been forced upon him.

Bulgarians Move On.

Sofia despatches indicate a continued forward movement of the Bulgarians, but give no details. There still is no confirmation of the reported capture of Lule-Burgas, Demotica and Drama. The Bulgarians still are fighting in the direction of Visa, in pursuance of their plan to advance to the extreme east in the direction of Constantinople.

The Greeks are also marching with victories to their credit toward Sloniki where a feeling of extreme anxiety is said to prevail and provisions are running short.

The fact that no apparent effort is being made to stem the Greek advance on Saloniki is held to indicate that the bulk of Turkey's army there has been transferred to Thrace.

No recent information has been received of the operations around Scutari or other points to the west, and Sofia today observed a significant silence.

Diplomatic activities continue in London. The prime minister, Mr. Asquith, had an audience with the king today. No formal action has been taken or is likely to be taken until the result of the great battle is known.

Slaughter of Turks Terrible.

According to a despatch tonight, terrible details are reaching Belgrade of the retreat of the Turks from Kumanova. They tried to stop the Servian advance by making breast works of dead bodies. Six thousands corpses were found on the road from Kumanova and Uskup and six truck loads of petroleum had to be brought from the rear for the purpose of burning the dead. A Constantinople despatch says it is considered a bad sign by the Turkish authorities that no news has been received of Zekkia Pasha's army in the north of Macedonia. It is officially announced that the roadway to Kirk-Kilisseh is again in operation and that the Turks have begun the offensive movement.

A Belgrade despatch says the fighting there was exceptionally sanguinary. The 80,000 Turks demoralized and made a wild retreat in the direction of Monastir and Saloniki.

Turks Burn Villages.

Athens, Oct. 29.—The Bashibazouks (Turkish irregulars), have pillaged and burned six villages in the Janina district. They killed many women and children. The Greek arch-priest at Janina has been murdered.

CLARK SPEAKS IN CHICAGO.

Chicago, Oct. 29.—Champ Clark speaker of the house of representatives, arrived in Chicago today too late to fill one of his early engagements but started out in the evening to make several addresses at mass meetings in different parts of the city. He made one speech at a luncheon late in the afternoon and declared that the "only thing uncertain in the outlook at present is whether Roosevelt or Taft will run second."

"Business throughout the country from the Atlantic to the Pacific is not disturbed by the campaign, nor by alarmist predictions," he said. "It is today the opinion that the panic bogey will not effect the results on November 5th."

ESCAPED CONVICE CAPTURED.

Chicago, Oct. 29.—Tony Landers, one of three men who escaped from Joliet prison on Sunday, was caught at Worth today, seventeen miles south of here. William Dunne and Frank Thompson, who escaped with Landers, separated from him soon after leaving Joliet, Landers said. He was taken back to the penitentiary this evening.

TINKER SAYS HE IS THROUGH WITH CUBS

CAN'T PLAY SAME GAME UNDER EVERS AS UNDER CHANCE

Veteran Short Stop Holds Long Conference With Herrman Concerning Management of Cincinnatti National League Club.

CHICAGO, OCT. 29.—Shortstop Joe Tinker of the Chicago National League club announced today that he will not play again with the team.

"I can't play the same kind of ball under Evers that I did under Chance," Tinker said. "I will never put on a 'Cub' uniform again."

Tinker and President Garry Herrmann of the Cincinnati National League club held a long conference concerning the management of the team. The shortstop said that Herrman was prepared to trade several players for him.

"He will give one infielder and two outfielders for me," Tinker said. "No pitchers are to be included in the deal. I told him that I didn't want the Cincinnati club weakened. After our talk he decided that he would give Grant for me or that Evers might have two of the following four outfielders: Mitchell, Kingsley, Bates or Kyle.

"Evers says he will not consent to a trade unless he can get Mike Doolan of Philadelphia for a shortstop. That is unjust to me. There are Cincinnati players available that would help make up a good infield. I was offered the management of the Chicago team two years ago by Murphy, but I declined it. He said he wanted me to take charge if anything ever happened to Chance."

CHANGE NOW WOULD ENDANGER BUSINESS WORLD

President States Policies Constructed By Him Are Now Coming to Focus—Another Term Will Enable Him to Achieve Reforms Already Outlined.

Washington, Oct. 30. — President Taft in an authorized interview this morning outlined the accomplishments of his administration and the policies on which his heart was set. He said in substance:

"Some of the greatest policies on which I have set my heart are just now coming to a focus. The period of reconstruction began when I took office, but we have yet to finish the work. The steel crane work has been erected, but we must now put in the floors and ceilings. I say that it would be dangerous to change the whole force of workmen at this crucial period.

"Had I signed the tariff-for-revenue-only bills submitted to me by the Democratic congress, the present era of prosperity would not be here today. The business world would not have been able to adjust itself to those bills for many years. And even the present prosperity is not great enough to act as a shock-absorber to a Democratic administration.

"If there should be a disturbance of the tariff now—the shaking up that only the Democrats can give it—there will be another atrophy of business effort that will affect the whole country."

Another term as president, he concluded, would enable him to achieve a large number of reforms already outlined by him in his various messages to congress and in his statements to the people.

PRESIDENT HOLDS POLITICAL CONFERENCE WITH HILLES

Taft Holds One of the Last Political Conferences of the Campaign in New York.

New York, Oct. 29.—President Taft had one of the last political conferences of the campaign here tonight at a hotel. Chairman Hilles, of the Republican National committee, and Senator Crane, of Massachusetts, discussed the general political situation with the president at dinner.

Afterward many Republican leaders in New York and nearby states met the president and talked over conditions. It was said tonight that the discussion was confined to the general situation, that no change in the plan of campaign was contemplated.

The president came here to witness the launching tomorrow of the nation's biggest battleship, the dreadnaught, New York. Secretary of the Navy Meyer came with him. President Taft will return to Washington Thursday morning.

OFFER $500 REWARD.

Dallas, Texas, Oct. 29.—Officials of the Missouri, Kansas & Texas railway today offered a reward of $500 for the arrest and conviction of three bandits who robbed a train at Worth, Okla., early this morning. According to railway officials here little money was obtained.

According to the railroad officials, the three men overlooked a package containing $50,000 in currency in the express cars.

From sources other than the officials, it is learned the booty secured will reach $25,000.

The bandits had succeeded in eluding several posses up to a late hour tonight, and are believed to have made their way to the Winding Stair mountains, the most primitive section of Oklahoma, and used as a hiding place by the lawless for years.

WILSON AGAIN STATES HIS TARIFF DOCTRINE

POLICY WILL CUT OUT OF TARIFF MERELY SPECIAL PRIVILEGE IN IT

Said He Had Repeatedly Expressed His Tariff Views and Those Who Asked Him to Define His Position "Could Not Read the English Language."

NEWARK, N. J., Oct. 29.—Governor Woodrow Wilson in three speeches filled with satyrical attacks on his opponents, emphasized in North Jersey tonight that those of his opponents who constantly asked him to define his position on the tariff "could not read the English language." He said he had repeated time and again in his speeches his policy of cutting out of the tariff merely the special privileges lodged in it.

The President Taft's statements published today with regard to the panic of the early 90's, Governor Wilson made an extended reply to, first at Mont Claire, where he addressed a big audience, and again at Newark, where he spoke tonight.

He said it was wrong to attribute that panic to the tariff legislation "because the panic started before the tariff bill was enacted." He attributed the panic to the Republican currency legislation. The governor said in part:

"When the president of the United States makes himself responsible for the statement that the panic of 1893 was due to a tariff bill that came a year afterward and came because of Mr. Cleveland's administration, I can only express my deep regret that the president of the United States has not read the history of the United States.

"This statement, if he has made it, has been made in ignorance, because the panic of 1893 can be shown to have arisen out of currency legislation of a government controlled by the Republican party. The panic of 1893 was on its way before Mr. Cleveland became president and it matured merely in the first part of his administration and would have been stopped if the senate of the United States had yielded more promptly to the advice of the administration.

"It is unworthy of men in public life to mislead the public thought after such a fashion.

"I don't limit my view by the Democratic party; I look through it through the doctrines of the United States. If the Democratic party does not serve you after you have tried it, reject it—and I will join you in rejecting it."

He said the Democratic party's program was one by which America would be liberated, not embarrassed.

"If crisis come," he added, "if panic come on top of that, they can come only through those who to our infinite peril control the credit of America. It is not a prediction of panic which they make. It is a threat. I want you to mark it and watch it as a threat of men who, if they dare, can show they hold the credit of America in their hands."

REBEL LEADER IS HOLDING AMERICANS FOR RANSOM

Rojas Begins Former Brigandage In American Settlements — Is Now Holding a Wealthy Ranchman for $3,000 Ransom.

El Paso, Texas, Oct. 29.—The rebel leader, Anton Rojas, has begun his former brigandage in American settlements off the Casas Grandes district, refugees arriving here today say.

Rojas is holding A. P. Shillsbury for $3,000 ransom. Shillsbury is a wealthy ranchman of Colonia Pacheco, a Mormon settlement, but is not a Mormon. Other Americans have been released on the payment of smaller ransoms.

Inez Salazar is reported moving south to form a junction with Rojas, which would create a formidable force.

Rebel representatives here today received word that General Pascual Orozco, with the main body of the rebel army in the north, will re-enter Chihuahua in view of the withdrawal of federal troops to the south. Rebels in small bands are moving along the Texas border to the west.

WILL BE DETERMINED BY WIRELESS.

Paris, Oct. 29.—The exact time at a given moment in America and Europe will be established shortly by wireless telegraphy. About the middle of November it will be possible for the first time to establish with precision the longitudes of America and Europe in their relation to each other by the exchange of wireless signals between the great station at Arlington, Va., and the Riffle tower in Paris and other European stations.

Commissioner H. H. Pough at the international time conference here declared that the observatory in Washington was now distributing time with errors of only one thousandth part of a second. Hitherto European and American time has been established by cable, alolwances being made for loss of time in transmission, and it has been fixed only three times, 1860, 1870 and 1880.

READY FOR ILLINOIS GAME.

Minneapolis, Minn., Oct. 29.—Minnesota's football squad had a lively practice today including running signals and scrimmage, in preparation for the game with Illinois next Saturday, a harder game than that with Iowa being expected, but the team is condent of winning.

BODY OF MISSING MAN IS RECOVERED

FINDING OF BODY IN RIVER POINTS TOWARD MURDER

Contractor of Sioux City May Have Been Victim of Foul Play---Was One of Auto Party of Which All Have Dissappeared Mysteriously.

Sioux City, Ia., Oct. 29.—Circumstances surrounding the case of George Miller, a contractor whose body was recovered from the Missouri river near Winnebago, Neb., on Monday, point towards murder. Miller is known to have had several hundred dollars when he left here, whereas only $50 was found in his pockets.

Miller and a party consisting of Frank Stamper, Louis Matwig, Ida Hall and Bertha Holbrook, left on October 2nd, ostensibly for an automobile trip to Omaha. They visited a road house at South Sioux City, Nebraska and were not seen again.

Two days later, Matwig made a draft on his bank at Danbury for $50 announcing his intention of going to Minneapolis.

The finding of Miller's body in the river led at first to the belief that the automobile had dashed into the river at a point near Dakota City, Nebraska where the river recently has cut into the highway. Detectives now are inclined to believe that Miller lost his life by other violent means.

Today relatives and friends of the missing women reached the city and began an inquiry.

All May Have Drowned.

James Parker, a government employe, tonight reported to the police that he had found Stamper's suit case which was washed ashore near Sloan, ten miles from here.

The suit case contained a card bearing the name, "F. J. Stamper, Danbury, Iowa," and was filled with clothing. Farmers have been asked to drag the river several miles south of Winnebago in an effort to find the four missing persons.

MRS. GROVER CLEVELAND ANNOUNCES ENGAGEMENT

Is Engaged to Thomas Joseph Preston, Professor of Archaeology at Wells College—Dates of Marriage to be Announced Later.

Princeton, N. Y., Oct. 29.—Mrs. Grover Cleveland authorizes the announcement of her engagement to Thomas Joseph Preston, professor of archaeology and history of arts at Wells college. The date of the marriage is not yet determined, but will be announced later.

Mrs. Cleveland is a graduate of Wells college and a trustee since 1887. Her wedding to President Grover Cleveland took place in the executive mansion during his first administration.

Her father was a law partner of Mr. Cleveland, who upon her father's death in 1875, became Frances Folsom's guardian. After his retirement from the presidency Mr. Cleveland made his permanent home here and Mrs. Cleveland has continued to live here since the death of the former president in 198. Her daughters Esther and Marion and her son, Richard Folsom Cleveland, are living with her.

Announcement of the engagement was made tonight by President John Grier Hibben of Princeton university, who said:

"Prof. Preston is 50 years old. He is a graduate of Princeton and one whom we hold in high esteem. As a young man his university studies at Columbia were interrupted and giving up the idea of completing his education he went into business in which he made a rapid and noble success, establishing him at the head of a prosperous manufacturing company in Newark, N. J.

"After securing a substantial fortune, he determined to attain a long desired end which his earlier years had denied him. Although nearing the age of forty, he closed his active business career and went abroad to study for two years at Sarbonne, Paris. Then he came to Princeton for two additional years of study. He took at the same commencement not only the degree of Lit B., but the degree of M. A. A unique attainment.

WILL PROTEST PROPOSED QUARANTINE ON CHRISTMAS TREES

State Officials of Maine, New Hampshire and Massachusetts Go to Washington to Confere with Agricultural Department.

Boston, Oct. 29.—Prepared to protest against the proposed enactment of a quarantine on Christmas trees and other holiday greenery produced in New England, state officials of Maine, New Hampshire and Massachusetts went to Washington today. Tomorrow they will appear at the department of agriculture and endeavor to prove that the forest products used at Christmas time do not carry the eggs of the destructive gypsy and brown tails moths.

A new provision in the agricultural bill authories the secretary of agriculture to quarantine any state, territory or district where there is a dangerous plant disease or insect. The department has found that the gypsy moth eggs may be transported on Christmas trees and greens.

SAY DYNAMITE WAS THROWN FROM TRAIN

TWO PACKAGES OF EXPLOSIVE SAID TO HAVE BEEN THROWN FROM TRAIN

Dynamite With Lighted Fuse Attached Was Hurled From Car Window into Steel Construction Work at Indiana Harbor—Night Watchman Testifies.

Indianapolis, Ind., Oct. 29.—Testimony that two packages of dynamite were carried on a fast passenger train from Chcago and that after a fuse on each package was lighted both bundles were thrown out of the train window into some steel construction work at Indiana Harbor, Ind., was given at the dynamite conspiracy trial today.

John F. Byrn, a night watchman, testified that at 1 a. m. on May 24, 1909, he noticed the sputter of a fuse burning in the darkness. Investigating, he said, he found the fire was fast reaching fourteen sticks of dynamite wrapped together in a Chicago newspaper. Unable to extinguish the fuse, he threw the dynamite into an inlet of the lake. Byrn said near a partol box where he was going to send in a call, he found another package of fourteen sticks of dynamite, the fuse to which had been lighted but had gone out. The witness said no one could have put the explosive at those points except by throwing it off a train.

The government contends that some one other than Ortie E. McManigal and James B. McNamara arranged for the explosion.

SHERMAN'S CONDITION DOES NOT SHOW MUCH CHANGE

Spends Restless and Unsatisfactory Day—Resting More Easily Last Night.

Utica, N. Y., Oct. 29.—After a restless and unsatisfactory day, Vice-President Sherman dropped off to sleep while sitting in his chair at 8:30 o'clock tonight, and at 11:30 o'clock was still sleeping. Dr. Peck, who had been with him most of the time for twenty-four hours, left for home, expressing confidence that his patient would go through the night without great distress. His kidneys are acting somewhat more favorably.

Deep Interest at Capitol.

Washington, Oct. 29.—Deep interest was manifested today in the condition of Vice-president Sherman at Utica. His illness was the subject at the cabinet meeting. Confidence was expressed that the vice-president would recover, although the most optimistic did not expect him to be in the chair when the senate re-convenes in December.

Students busied themselves today with investigation of the complications that would arise should the vice-president's illness result fatally or compel his withdrawal before the election.

No precendents were found sovering the situation. Inasmuch as party procedure is not governed by statute, some of the parliamentarians said the party had the legal right to handle the situation in whatever manner it pleased.

The poinion was expressed that this would result in the national or executive committee selecting a substitute candidate and printing his name on the ballot in states where the tickets have not already been sent to the press.

LARGEST FISH HATCHERY IN THE WORLD OPENED

Plant Is Formally Turned Over to the State—Covers 65 Acres and Includes 83 Ponds.

Pratt, Kans., Oct. 29.—The largest fish hatchery in the world was formally turned over to the state today, when Chancellor Frank Strong, of the University of Kansas, turned a valve that sent a stream of water leaping into a breeding pond at Pratt.

The hatchery will be used to supply Kansas farmers with young fish to stock streams and ponds. It consists of eighty-three ponds, in which the fish will be separated according to size. It extends over an area of sixty-five acres. Speaking at the dedication, State Fish and Game Warden Louis L. Doyhe said:

"If I can get each farmer in Kansas to raise but one mess of fish a week, it would mean one and a quarter millions of dollars to the state a year. When farmers come to spend half as much time with their fish as they do with their hogs, the fish industry will be one of the most important of the state."

ABANDONED ROBBERY THEORY

Chicago, Oct. 29.—After examining several witnesses, Coroner Hoffman today continued indefinitely the inquest over the body of Miss Sophia G. Singer, of Baltimore, who after eloping to Chicago with William Worthen, a street car conductor, was found murdered in a South Side boarding house, to permit the police to find Charles D. Conway and his wife, vaudeville performers, warted as witnesses. The Conway's occupied rooms on the same floor as the victim and disappeared before the finding of the body. Conway recently had a leg amputated at a hospital.

Worthen is held as a witness. The police tonight abandoned the robbery theory and declared that Miss Singer's jewelry was not worth more than $100, and that she did not have more than $50 in her purse when she was murdered.

FARMERS HAVE BEEN BENEFITTED

AGRICULTURAL DEPARTMENT SHOWS CONVINCING RESULTS

Wilson Asserts Generous Appropriations Under Republican Administration Has Made Farmers Millions of Dollars.

ROCKFORD, ILL., OCT. 29.—Secretary James Wilson of the department of agriculture, in an address here tonight in support of the Republican candidates, asserted that during the last 16 years under Republican administration the farmers of the United States had received benefits amounting to hundreds of millions of dollars through generous appropriations for agricultural work. The annual appropriation now, he said, is about $17,000,000, whereas the last Democratic annual appropriation, according to Mr. Wilson, was $3,000,000.

"The introduction of new varieties of wheat in the northwest has made many thousands of acres of arid land productive to the extent of $50,000,000 annually," he said. "The increase in the oat crop in Wisconsin through the introduction of the Swedish varieties is about $2,000,000 annually."

The secretary went into detail of the increase in the yield of corn acreage and claimed credit for this for President Taft, who, he said, had taken personal interest in the work and had urged its prosecution.

"In Illinois the yield of corn has been increased about 15 bushels per acre," Mr. Wilson said. "This is due to the work of the department experimental stations."

Free trade, Mr. Wilson asserted, is a menace to the prosperity of the farmer.

Mr. Wilson's itinerary is as follows:

Wednesday—Beloit, Wis.
Thursday—Edgerton, Wis.
Saturday—Macomb, Ill.
Monday—Traer, Iowa.

JACK JOHNSON IS SILENCED BY COURT

Attempts to "Vindicate" Himself, But Judge Is Not Inclined to Hear His Speech.

Chicago, Oct. 29.—During the abduction charge hearing against him, in the municipal court today, Jack Johnson, the negro pugilist, was silenced and ordered to leave the court room by Judge Jacob Hopkins when he attempted to "vindicate" himself. Judge Hopkins had ordered the case continued to Nov. 19. Johnson's attorney objected, but the court refused to change the date.

Johnson then approached the rail, and said:

"Judge, may I say a few words? I want to prove to the world that I am innocent and that I have meant no harm to any girls, white or black—"

"I don't want to hear any speeches from you," interrupted the judge.

"But"—began Johnson.

"There are no buts about it," the judge said. "You can't make any speeches here. Leave the court room immediately. Your case is over until Nov. 19.

Hearing of the disorderly charge against Lucile Cameron, the 19-year-old Minneapolis white girl, Johnson is accused of abducting, was continued until Nov. 14.

The federal grand jury heard no witnesses in the investigation of Johnson's relations with white women owing to the absence of a court official.

WOMAN'S FORMER EMPLOYE IS ARRESTED ON MURDER CHARGE

Ward Stafford, of Warsaw, Is Held for Woman's Murder—Declares His Innocence.

Warsaw, Ills., Oct. 29.—Ward Stafford, of this place, who was arrested today for the murder of Miss Ellen Cullene, whose body was found in the ruins of her home Monday morning, stoutly denies his guilt. He is a former employe fo Miss Cullene. His arrest was brought about by blood hounds following two trails from the ruins to his home.

The dogs failed to pay any attention to him when they met him on the street today, however.

A coroner's investigation of the case was re-opened tonight, when testimony was given that Miss Cullene was in the habit of wearing several cloths around her neck when at home to protect a goitre.

Bogardus Goes to Warsaw.

Springfield, Ills., Oct. 29.—The state fire marshal's department is investigating a fire in Warsaw, Ills., Monday, in which Miss Ellen Cullene perished. Deputy Marshal Bogardus left this afternoon for Warsaw upon learning of a rumor that the woman had been murdered and the house set on fire to cover up the crime.

Deputy Fire Marshal Lovejoy during the morning arrested a suspect in the case. It is said a piece of rope was found about Miss Cullene's body when the charred remains were fdoun.

KILBANE WINS BY KNOCOUT.

Johnstown, Pa., Oct. 29.—Johnny Kilbane, champion feather-weight, knocked out Tommy Dugan, of California in the fourth round here tonight.

"DEATH HOUSE" WILL BE BECKER'S HOME

Will Receive Sentence This Morning for the Murder of Rosenthal

TO BE SENT TO SING SING

After Being Told He Must Die in Electric Chair He Will Be Taken to New York State Prison.

SHAPIRO HAS TOLD HIS STORY

NEW YORK, OCT. 29.—Charles Becker, deposed police lieutenant, will be sentenced tomorrow morning for the murder of Herman Rosenthal, the gambler. Becker will be brought before Justice Goff in the criminal courts building and will be told that he must die in the electric chair in Sing Sing prison.

The "death house" at Sing Sing will be Becker's home beginning not later than Sunday, the state plans. District Attorney Whitman does not want the responsibility of the former lieutenant's presence in this city when he places the "gunmen" on trial. The first of them probably will be tried Monday. Sheriff Harburger declares he will not delay Becker's removal from the Tombs.

While state's counsel is said to be willing to wait until Saturday before taking Becker to Sing Sing, Sheriff Harburger said he would start with his prisoner on Thursday morning; possibly tomorrow afternoon.

Shapiro Makes Confession.

The task of the state in prosecuting the gangsters—"Lefty Louie," "Whitey Lewis," "Gyp the Blood" and "Dago Frank"—made less difficult today when William Shapiro, driver of the "murder car" made what was purported to be a confession.

Shapiro was closeted with District Attorney Whitman for several hours. For days his counsel, Aaron J. Levy, had urged him to tell all he knew. Shapiro feared to do so, the lawyer said, because he believed he would be killed.

With Shapiro's confession and his testimony on the stand against the "murder crew" all in corroboration of what the state already knows of the movements of Rosenthal's alleged slayers on the morning the gambler was killed, District Attorney Whitman believes he will have no trouble convicting the gangsters.

Tried on Other Charge.

If Shapiro tells a story which will help convict his pasengers in the "murder car" he probably will be tried on some less serious charge than that of murder.

Mr. Whitman is said to be willing to agree to this.

"Red" Davidson, slayer of "Big Jack" Zelig, is expected to plead guilty either to murder in the second degree or to manslaughter when brought to trial tomorrow. Mr. Whitman, while assured that Davidson will not force the state to try him, is ready to go on with the case. Davidson's counsel, it is understood, will insist that his client be allowed to plead to manslaughter, which has 20 years as a maximum penalty. If the state insists on second degree murder as the plea, Davidson can be sentenced to life imprisonment.

Report of Confession Confirmed.

Aaron J. Levy, his counsel tonight confirmed the report that Shapiro had confessed and would take the stand against the four gangsters. The nature of this confession the lawyers declined to discuss.

WITNESS STRENGTHENS DEFENSE.

Lake Charles, La., Oct. 29.—A point for the defense was scored today in the Grabow labor riot case when Henry Glasscock, a defense witness testified that President Emerson, one of the defendants instead of advising violence in the speech he was delivering when the battle broke out, declared the brotherhood of timber workers intended to accomplish the purpose of its strike through organization. Much of the testimony of the witnesses for the defense today was relative to the beginning of the battle. Though none attempted to say who fired the first shot they agreed in their statements that it came from some one of the mill men.

BROOK & BRECKON

BOOSTER CLUB WILL HAVE EXCURSION

Will Visit Car Shops and Bridge Factory Friday Afternoon—W. F. Bender Gives Address.

A very enthusiastic meeting of the Young Men's Booster club was held Tuesday evening in the offices of the Business Men's association with a large number of members in attendance. The club has arranged to have a "Know Your City" excursion to the car shops and bridge factory next Friday afternoon and the address of the evening was given by W. F. Bender of Champaign.

At the last meeting of the club there were only 22 members and at this meeting 61 new members were taken in, making the total membership 83. All of the members are working for new applications and they expect to double the present membership by the next meeting.

The meeting opened with the usual routine of reading and approving the minutes of the last meeting and a communication regarding pins for the club was received from Paul B. Fritchey, secretary of the Business Men's association. Quite a little discussion was had concerning this, but nothing definite was decided. The advisory committee submitted by-laws for the organization and arrangements for the excursion next Friday were completed. Cars will be donated by the street railway company and they plan to leave the square at 1 o'clock next Friday afternoon, going to the car shops and the bridge factory. Anyone interested is invited to attend and the members of the club expect to set a good mark for their first undertaking of this kind by having fully 300 attend. The date of the next smoker was changed from Nov. 12 to Nov. 8, and the members accepted the invitation of the Business Men's association to attend their mass meeting which is to be held in Socialist hall, Nov. 12.

W. F. Bender of Champaign was then introduced and gave a very helpful address on the possibilities of the club. He brought out the fact that the future of the city and of the nation depended on the young men and that they must have independence of thought in order to do the work that they should perform and he also said that although the opportunities now may not be as numerous as they were years before, nevertheless they are here and they should make use of them. He also emphasized the need of hospitality to strangers and visitors.

A list of the new members follow: Leonard Acre, Albert Atherton, Roy Atherton, Charles T. Ator, Wilfred Ayers, O. N. Barr, Herbert J. Capps, W. F. Cook, W. E. Day, Fred Dodsworth, V. W. Edwards, W. J. Eads, William A. Fay, Charles Faucett, William H. Franz, W. D. Gates, H. C. Gay, H. A. Goodrick, L. I. Hamilton, A. L. Henderson, David W. Howe, Ralph W. Hutchinson, T. C. Jeffkinson, Leo S. Johnson, Verne R. Johnson, Dr. A. C. Kingsley, C. F. Kins, B. C. Lair, B. F. Lane, John W. Larson, H. C. Livingston, William Lucas, L. M. Malone, James Mernin, Paul E. Morrison, R. E. Mullenix, John C. Mullenix, Dr. F. A. Norris, R. A. Newsome, L. M. Osborne, Marcy W. Osborne, Homer H. Potter, James C. Pyatt, Robert H. Reid, C. C. Rigden, Harry C. Roach, R. Y. Rowe, E. C. Roach, Dwight E. Smith, Walter E. Spoonts, Tilman J. Stout, F. S. Sturgeon, William T. Suby, D. D. Sutcliffe, William O. Swales, Jewell E. Scott, Carl H. Weber, Arthur Wilkinson, F. L. Wilson and U. D. Wilson.

SUFFERED BROKEN ARM.

Frank Tomlin Drury, the seven year old son of Mr. and Mrs. Frank Drury of the Orleans neighborhood, was brought to the city Tuesday and an x-ray picture was taken of a broken arm. The accident happened last Saturday in Pleasant Plains where Mrs. Drury was visiting her mother, Mrs. Edwin Tomlin. The boy was playing about the house with some other children, and in running up the stair way in some manner lost his footing and fell to the bottom. The fracture was just above the elbow of the right arm. A physician of Pleasant Plains set the bone, but the family took the extra precaution to know that the bone was healing properly.

RAISING GREAT FUND.

Dr. Harker received a letter yesterday from his friend Dr. Race, president of Chattanooga university at Chattanooga, telling of the great campaign for funds there which is nearing the close. The general educational board of the church offered to give $150,000 if friends of the institution would give $350,000. The campaign was started about six months ago and is just about to close. People in the city of Chattanooga have given $200,000 and persons outside have given $110,000 and now Dr. Race and his associates are in quest of the needed $40,000 which will doubtless be forthcoming very speedily. Jacksonville people will soon have the chance to pattern after Chattanooga in helping raise a fund for Illinois Woman's college.

GOTHAM MONEY- LENDERS THRIVE.

New York, Oct. 29.—Money lenders here do an annual business of $20,000,000; more than 100,000 persons, including 30,000 municipal employes, are in their clutches and state courts are the unwilling instruments through which usury is collected according to a report made public tonight by investigators for District Attorney Whitman. A city bureau is recommended with a view to curbing the rapacity of "loan sharks."

The Helvia which accomplished the longest flight yet recorded, made a stormy landing 26 miles to the west of Danseg, as the pilot feared to cross the Baltic sea. The distance from the starting point was 472 1-4 miles.

JOHNSON IN CONNECTICUT.

Norwich, Conn., Oct. 29.—Over the route Colonel Roosevelt had promised Connecticut Progressives he would cover during the closing days of the campaign, Governor Johnson traveled today and received an enthusiastic welcome.

He spoke in Meriden, New London and Norwich. The New London meeting was the largest of the day. More than a score of women gave away American flags and took a collection in tin buckets.

Governor Johnson left tonight for New York where he is to appear with Colonel Roosevelt at Madison Square Garden tomorrow evening. His voice weakened today, becoming very husky and he expressed fears that it might not be in good shape for the big meeting.

CHURCH SOCIALS.

A home-coming social was given Tuesday night at the Congregational church by the members of the ladies' aid society whose birthdays occur in July, August, September and October. The social was for the general membership of the church and the Sunday school and there was a large attendance. The Hallowe'en idea was carried out in the decorations, corn stalks and autumn tinted leaves being used very effectively. Miss Elizabeth Myers impersonated a witch and from a caldron told the fortunes of many of those present. Cards with the imprint of a black cat were distributed and each bore fifteen questions which could be correctly answered by words beginning with "Cat." The honors in this contest were awarded Mrs. J. P. Lippincott with Mr. Putnam as a close second. Sandwiches, coffee and other good things were served and the occasion was marked by especial good feeling and fellowship. The Rhodes library new books wehe exhibited and thus became an added feature of special interest. Mrs. J. E. Knapp was chairman of the committee of arrangements, and had a number of able assistants.

Brooklyn Church.

A very successful Hallowe'en social was given by the Epworth League at Brooklyn church Tuesday evening which was largely attended. Beginning at 7:30 o'clock a program was given and two of the most pleasing numbers were comedy sketches by the boys of the Y. M. C. A., one of them entitled, "The Editor's Troubles" and the other, "Lost in the Woods." Those who took part in the sketches were Frank Gruenwald, James Kolp, H. A. Brewer, Lance Waterfield, Everett Long, Warren Maddox and Lloyd Malone. William Happy gave some vocal solos, a number of selections were given by the Ghost orchestra and Glee club and the girls class sang. After the program the doors to the other rooms were thrown open and here had been arranged a free refreshment stand, doughnuts and fortune telling booths and a house of mystery. The rooms were very appropriately decorated with corn stalks, jack o'lanterns, and Japanese lanterns. The league cleared a good sum by the venture and the committee in charge was composed of Innis Alkire, Mr. and Mrs. Harry Clemens, Frank Bourn, Bernice Redding, Ethel Reeve, Mrs. J. W. Moon, Mrs. J. H. Clemens and Leonard Potter.

Centenary Church.

A students' reception was given at Centenary church, Tuesday evening, by the members of the Epworth league of the church, which was largely attended, there being fully two hundred young people in attendance. The event was one of the most enjoyable held yet this season and a very entertaining program was given, and among the events of the indoor meet which caused a great deal of amusement were: One yard dash, in which the contestants were required to chew one yard of string, standing broad grin, shot put, here the participants being required to drop beans in a bottle, and a relay race, where the participants were required to chew crackers and when they finished give a signal so that the next one in order would start. Another feature of the entertainment was a contest in which those present pinned together pictures which had been cut in three pieces. During the evening frappe and wafers were served and music was enjoyed. The rooms of the church were very prettily decorated with corn, jack-o'lanterns and yellow swastika emblems were hung from the chandeliers. Pumpkin faces were used as shades for the electric lights. The committee in charge of the reception and to whom much credit for the success of the affair was due was composed of Mrs. Blanche Maddox, Mis Florence Ticknor, Miss Nell Anderson, Miss Ollie Weatherford, Miss Cora Potter and Miss Verna Smith.

VISITED HIS PARENTS HERE.

Prof. W. A. Lippincott, after a brief visit with his parents, Mr. and Mrs. J. P. Lippincott, here, left for Chicago to attend a meeting of the National Poultry and Butter and Egg association, as a representative of the Kansas State Agricultural college. In Chicago he will also attend a meeting of the committee of nine of the American Poultry association delegated to formulate a standard for the judging of eggs and poultry. When formulated this will be the standard for marketing eggs in the United States. Prof. Lippencott is at the head of the department of poultry husbandry at the Kansas State Agricultural college and is recognized now as one of the leading poultry experts of the country.

PLANNING NEW TIME CARD.

Passenger traffic agents on all divisions of the Chicago & Alton, who have been working on a new time card, will meet in Bloomington this week to arrange the final details. Kresident Worthington has devoted a great deal of time to a study of the traffic possibilities of the Alton since he has assumed office and when the new card appears early next month passenger trains will be placed in the service that will open up territories that have never before been adequately handled by the road. One of the new trains will be sent out over the air line from Springfield to Murryaville and it will make connections as far south as Mexico.

IS A GREAT WORKER.

Milton Lorton of Woodson has made some great shoveling records recently. He shoveled fifty tons of gravel from a car for the Elevator company in six hours and 35 minutes. He also unloaded a 43 ton car of coal for John Henry of Woodson in seven hours and 20 minutes. Mr. Lorton formerly lived in Hillview and was held in high esteem by residents there as he is now at Woodson.

SUFFRAGE CAMPAIGN.

Milwaukee, Wis., Oct. 29.—One week from today the voters of Wisconsin will declare themselves for or against the proposed amendment to the state constitution granting the right of suffrage to women. The campaign is being conducted with great vigor and the result is awaited with keen interest. The supporters of the proposed amendment have brought into the state many prominent speakers from other sections and have carried the battle into every county. Scarcely less active is the campaign of the anti-suffragists to defeat the amendment.

TALKED ABOUT EARLY ILLINOIS

Mrs. Jessie Palmer Weber Made Delightful Address Before D. A. R. Chapter.

Rev. James Caldwell Chapter, D. A. R., met Tuesday afternoon with Mrs. O. F. Buffe, at her home on West Lafayette avenue. The occasion was of particular interest because of the fact that Mrs. Jessie Palmer Weber, of Springfield, was the special guest of the chapter and made an address on "Early Illinois History." The speaker traced the history of the state from the very beginning and presented a great many interesting facts entirely new to her auditors. Mrs. Weber is librarian for the Illinois State Historical society and so is in position to get in touch with a vast number of traditions and valuable data about the state concerning which most people are ignorant. It is an easy matter for a speaker or writer in handling historical matters to be prosy and uninteresting, but not so with Mrs. Weber, and yesterday her auditors found the theme one of absorbing interest and listened to every word with the keenest pleasure.

Miss Hazel Belle Long played two piano selections very artistically and the whole afternoon was one of pleasure. The chapter decided by a unanimous vote to take an active part in aiding the anti-tuberculosis campaign work. Mrs. Buffe had decorated her home appropriately with flags and proved a charming hostess.

GLEANS LESSON FROM TITANIC

Harold C. Kessinger Speaks Before the Yeomen of America—Splendid Program Was Given.

Harold C. Kessinger gave a very fine address before the members of the Yeomen of America, in their hall Tuesday evening. An interesting program of musical numbers was also greatly appreciated. Mr. Kessinger is a young orator of much ability and is always heard with unusual interest.

The speaker gave his lecture, "The Lesson of the Titanic," using the story of the recent sea disaster as an example of man's vanity. He said: "They didn't think the Titanic needed life boats, but it did. The Titanic left us not only lessons, but also memories, memories of deeds as heroic, as all the annals of history record. Mr. and Mrs. Isadore Strauss, what a priceless heritage they have left their children and grandchildren. They knew how to do three great things, how to live, and how to love and how to die. When Mrs. Strauss chose to be with her husband in death, rather than without him in life, she took her place among the noblest heroines of history and literature, and answered for all time, for all the doubting and sceptical sons of men that there is in this selfish world, the most unselfish thing in all the universe, the love of husband and wife, a love that is devoted, unselfish and true, greater than power, sweeter than life, and stronger than death. The Titanic taught us not only to be prepared for the ever eminent dangers and uncertainties of this life, but it left us lessons of fraternalism and brotherhood unparalled in the world's history.

Once Christian and Jew, Protestant and Catholic, shot and maimed and murdered one another, but today they join the same great fraternal societies, where they meet and mingle together, not as followers of certain creeds, not as members of political parties, not as high or low, rich or poor, but as brothers and sisters, meeting on the broad plain of human brotherhood. The Yeomen of America stand for the brotherhood of man, for protection of home and loved ones, for a religion that is practiced as well as preached."

The following was the program given:

LECTURES AT BAPTIST CHURCH.

Dr. Wilbur F. Crafts Heard By Large Audience—Speaks at High School.

Dr. Wilbur F. Crafts of Washington, of the International Reform bureau, gave a very instructive lecture before a large audience at the First Baptist church Tuesday evening. He took for his subject, "The New Chivalry," and in it he showed that above 40 years of age Americans are dying faster than ever before and attribute it to a moral breakdown that eventually brings on a physical breakdown in men and to correct this he said: "We must appeal to the intelligent self-love of the youth. We must prove to boys and young men that vice is the keeps a man from getting a good job and makes him liable to lose it if he gets it; that the vicious will lag in athletics, in scholarship, in business success, in public esteem; that the young man who drinks moderately at 20 will cut out of his life the 13 best years, as insurance tests of fifth years prove, that every one who sins against purity is on the straight road to the near hell of the 'black plague.' Show boys and young men that bad morals are bad manners, bad hygiene, success-killers, joy killers, man-killers."

Tuesday morning Dr. Crafts addressed the students at the high school, speaking on "The Essentials of Manliness." He gave seven essentials to true manliness and womanliness which he enumerated as follows: consideration for others, purity of speech, independence, being up to date on important knowledge, self-control, knightly consideration for womanhood and our attitude of prayer.

SEE MYSTERIOUS BEAST.

Jerseyville, Ill., Oct. 29.—A mysterious beast of prey, which shrieks like a woman in distress, has been seen at dusk and dawn at various parts of Jersey county during the last week and it invaded Jerseyville today. The animal waylaid a dairyman returning from a barn just before daylight. The man saw a yellowish beast of large size with flaming eyes. He fled and from the shelter of his house saw the animal drinking from his abandoned milk pails. The beast vanished with a shrill scream. It appeared later at another farm where its cries brought several men, who thought it was a woman calling for help. None of them got near enough the animal to describe it.

KILLED BY EMPLOYE.

Greensboro, N. C., Oct. 29.—Geo. G. Thompson, 48 years old, division freight agent of the Southern railway, was shot and killed here today by W. R. Blair, his chief clerk, whom he had dismissed. Blair was arrested in the room with the corpse, crouched in a corner muttering, "I have killed my best friend."

GOOD RESOLUTIONS

Those that make for comfort, convenience and economy and are lived up to—such are the resolutions to install gas in the home, as a means for lighting, heating and cooking. Certainly no intelligent man or woman today would be without gas unless they were where it could not be secured. As a matter of fact, people in the country realize so fully its advantages that they have imitated it by installing acetylene plants, which are extremely costly. However, for the small sum of $1.25 per room, you can have gas in your home. Why not see us today about this matter?

TAFT SHOWS DANGER IN SIGHT FOR OHIO

SAYS STATE WOULD SUFFER FROM TARIFF TINKERING.

In Letter to Fred A. Geier of Cincinnati the President Warns of Consequences of Changes in Tariff on Steel, Wool and Pottery in His Home State.

Washington, Oct. 29.—"No man would care to have his state fail him, but wholly apart from selfish reasons, I want to see Ohio go Republican by a large majority," said President Taft in a letter to Fred A. Geier, of Cincinnati, made public today at the white house. The president attacked Governor Wilson and the Democratic party on the tariff question and said that Ohio would suffer particularly if the present tariff protecting the steel, wool and pottery businesses were disturbed. The letter follows:

Wants to See Ohio Republican.

My dear Mr. Geier:

"I am most gratified to learn of the splendid work which you are doing to arouse the business men of Ohio and of the excellent prospects of victory for the Republican ticket in my own state. Of course the fact that it is my own state makes me all the more pleased. As you can well appreciate, no man would care to have his state fail him, but wholly apart from selfish reasons, I want to see Ohio go Republican by a large majority.

"The injury which Ohio would suffer from a Democratic victory would probably exceed that inflicted on any other state in the Union. That is clearly shown by the efforts which our Democratic friends have already made to rob Ohio industries of the protection which is so essential to their continuance, to say nothing of their prosperity.

Steel Bill Veto.

"You, of course, realize how disastrous the steel bill which I was compelled to veto would have proved to our state. Ohio has 523,000 persons engaged in manufacturing and a capital of $1,300,000,000 invested in manufacturing plants. How large a proportion of all this is involved in the manufacture of machine tools you know better than I, but it is a fact that the Democrats, without rhyme or reason, put all machine tools on the free list. Then, too, they cut the duty on steam engines, from 30 to 15 per cent, and throughout that bill they reduced duties until the average was 32.03 per cent, while eveen the Wilson bill imposed an average duty on the same products of 37.97 per cent—and you know the disaster which followed its enactment.

"In their wool bill the Democrats struck a vital blow at the wool industry. The report of the tariff board, the accuracy of which has never been challenged, shows that an average duty of 35 per cent is necessary to make the raising of wool profitable, but, absolutely heedless of that, the Democrats reduced the duty on raw wool to 29 per cent, and as for the manufacturers of woolens, the Democratic bill would have put them entirely out of business, leaving our farmers with no home market for their wool and throwing hundreds of thousands of employes out of work.

Wilson's ague Suggestion.

"Does it not strike you as supremely ridiculous for Governor Wilson vaguely to intimate that if he is elected he will make such a gentle reduction of the duties that business will not be injured, when his party has so recently put itself on record as attempting such reckless changes of the tariff that had I not vetoed their measures we would even now be confronted with a panic.

"What, think you, could Mr. Wilson do in the white house were there Democratic majorities in both houses of congress, majorities made up in large part of the same men who passed the steel and wool and the cotton and free list bills which I was compelled to veto and the vetoes of which he has himself criticised? And especially, what could he do, however good his intentions, when he had been elected on a platform which declares all tariff imposed for purposes of protection unconstitutional.

Danger of Democratic Majorities.

"During the present session of congress the Democrats lack control of the senate, and while they have been able to persuade a sufficient number of Republican senators to vote for their tariff measures, those same Republicans have in every case effected some increase of the duties over the point xed by the Democrats in the house. But if Governor Wilson should be elected it would mean also the election of a Democratic majority in the senate, and then even the compromises effected by the insurgent Republicans would seem mild reductions as compared to what Democratic majorities in both houses would sent to Mr. Wilson for his signature, and which he could not refuse to sign.

"What would happen to the pottery industry if the Democrats were in control of both houses and of the white house? You and I know how important that industry is to the welfare of thousands of families in Ohio. The men engaged in that industry in the United States receive an average wage of 24.8 cents an hour. In England they receive 11 cents an hour and in Japan, one of our greatest competitors, only 3.25 cents an hour. Even with the present tariff Japan is sending hundreds of thousands of dollars worth of pottery into this market every year, so that it is not hard to forsee what would become of the industry were the Democrats to win. When they were in power before they reduced the duty, in the Wilson bill, from 60 to 30 and 35 per cent and what was the result? The men in that industry, after being on strike for several months, were compelled to accept a 12½ per cent reduction of wages.

Third Party Support Means Wilson Votes.

"Of course these facts are clearly realized by the third party, so much that some of their most prominent speakers have not hesitated to declare that the election of Governor Wilson would mean financial disaster. And yet they are working for nothing other than the election of Mr. Wilson and a Democratic congress. From absolutely dependable sources information comes to me that none of the leaders of the third party believes it has the slightest chance of success and that they realize that a vote for it means a vote for the Democrats. But they are,e most of them, so filled with hatred for the Republican party because it refused to accept their dictation that they are willing to bring disaster upon the whole country simply to gratify their revenge.

"Under such circumstances I am sure you can appreciate, my dear Mr. Geier, how pleased I am to learn of the splendid work you are doing. You probably saw the Republican estimate of the vote in New York. You may accept it is trustworthy. The great reserve force of plain, practical common sense of the American people is asserting itself and that means victory for the Republican ticket on November 5th.

"Sincerely yours,
"Wm. H. Taft."

ADLAI STEVENSON ANSWERS PRESIDENT

Former ice-President Criticises Statements Made by Taft Concerning Panic in 1893.

Bloomington, Ills., Oct. 29—The attention of Adlai Stevenson, former vice-president with Grover Cleveland, having been called to the statement of President Taft to the effect that the panic of 1893 was caused by the election of Cleveland, Mr. Stevenson said today:

"The assertion of the president that 'unmistakably' upon Cleveland's election capital and industry took alarm and business was 'disorganized,' is, in the light of history, astounding. The McKinley tariff law was then in operation and the Democratic victory of 1892 was the emphatic protest of the people against the injustice and oppression of that tariff. It should be remembered that the panic began long before the inauguration of Cleveland and as President Taft admits two years before the enactment of the Wilson tariff. The president says, 'the Wilson bill was in sight above the horizon the morning after the November election of 1892 and capital became alarmed,' etc.

"Strange, indeed, that the people should suddenly become alarmed on the morning after the election of what they had done after deliberation of a million majority the day before. It was the McKinley tariff that was in sight above the horizon the morning before the election of 1892 and resulted in Cleveland receiving 277 electoral votes to 145 for Harrison.

"Marvelous, indeed, that the president should gravely argue that the Wilson tariff was the prime cause of the panic that, according to his own admission, began two years before the Wilson law was enacted. The president will doubtless have occasion to remember that it was the oppressive iniquitous Payne-Aldrich law he signed and declared to be the best tariff law that was in 'sight above the horizon' on the morning of November 5, 1912, and not the revision downward of the tariff law of the future now so earnestly demanded."

Chicago Tribune.—"One hundred dollars even that Taft is elected; $100 even that Taft carries California; $100 even that Roosevelt runs third, and $100 even that Taft will carry Cook county by 15,000 plurality," said Edward J. Perkins, a traveling man of New York at the Auditorium hotel yesterday.

Perkins added that "man and money can be found at this hotel, the money to be placed with John Calvey, assistant manager of the hotel."

"I have scoured New York, Pennsylvania and Massachusetts as if with a fine tooth comb," he said, "and the net result is for William Howard Taft."

RACING MAY BE RESUMED.

Indianapolis, Ind., Oct. 29.—Following the announcement from Hammond, Ind., that racing would be resumed at the Mineral Springs race track now that the state militia has departed, Mark Thistlethwaite, the governor's secretary stated today that no action would be taken to prevent racing until the governor returned, the last of the week.

A number of horse are at the track where the owners say they intend to winter them. The governor's secretary said the troops may be returned to Porter, as the state administration is determined that racing and gambling shall not be resumed.

SAY SHE POISONED THREE.

Chicago, Oct. 29.—First direct evidence calculated to bear out the state's contention that Mrs. Louise Lindloff caused the death of other members of her family as well as that for which she is now standing trial—the death of her son Arthur was given today by Milwaukee witnesses.

Among the half dozen Milwaukee witnesses were several medical experts. Prof. Walter S. Haines, the Chicago uoison expert testified that Alma, Arthur and Mr. Lindloff, the accused woman's second husband, had been poisoned.

MORE SCHOOLS VISITED

Pleasant Calls With Teachers and Pupils at Hebron Number 6 and Prairie Union.

One of the most pleasant days of the year was Tuesday when the writer had the pleasure of two calls with schools of this county.

The first was Hebron, district number 40, situated a mile northeast of Sinclair, where a fine body of pupils was found and a teacher, J. V. Kennedy, who is wide awake and full of enthusiasm for his work. He proudly referred to the fact that at the finals last year one of his pupils, Lloyd Cully, was the highest of any boy in the county. The schoolhouse is beautifully situated on rising ground with ample space and fine forest trees scattered about it. The principal thing the visitor found to criticise was the ancient fence which did look a little out of keeping with the rest of the plant. Of course the writer will not say it suggested the home of a bankrupt or of a widow who couldn't pay her debts; nothing of that sort at all; but probably the directors will see to it that the fence is replaced with a better one and then if they will rebuild the coal shed they will have a fine looking establishment.

The building is well supplied with seats though a few are old fashioned but new ones have been ordered and are on the way and teacher hopes to receive them soon. They have a library of 169 volumes, including a set of reference books and a dictionary. There were not many pictures on the walls but the familiar features of the father of his country and the great emancipator are in sight. Mr. Kennedy said they had several more but they had been on the walls a good while and recently they had been removed to give place to the leaves.

As a pleasant diversion and a useful one too, the teacher has introduced leaf study which has found much favor with the children who have pursued it with enthusiasm and have done much in the way of botanical research that is very creditable while at the same time their taste for the beautiful has been cultivated in a sensible manner.

They have heard of the schoolhouses which are supplied with the school heaters and while their large stove is in good repair they would be glad to make that exchange. Mr. Kennedy said the directors were very liberal toward him, authorizing him to buy whatever he deemed for the good of the school and charging it to the district.

Of course Sincalir is located in a fine community and the school would be expected to attract a good list of pupils and it does. The visitor spoke to them about some other lands and they paid good attenton and at the close asked a number of questions and while more would have been pleasing the number asked was good. Mr. Kennedy said his pupils were well bred and easily governed and it was, all in all, a pleasant school to teach.

The next school visited was Prairie Union which is located about five miles northeast of the city in a pleasant neighborhood. It is not very thickly settled about that region and so not so many pupils would be expected. The writer drove by going to Sinclair as the children were assembling and they were a bright, pleasant looking company of little seekers after learning.

As the visitor looked at one rosy checked lass riding at a gallop on a fine saddle horse he thought of his own younger days so long ago though he had no such animal to ride but generally had to walk except when some good natured farmer took him on a load of corn or something of the sort.

Prairie Union school building is pleasantly situated with large grounds but there are few good trees. A few ancient locust trees which look as if they were begging for existence and pleading not to be cut down are almost the only ones on the grounds. Some pleasant afternoon if the good people of that neighborhood would have a tree planting entertainment and go to the woods and get a few elms, maples and other suitable trees and set out they would be doing a righteous deed and then if they would have another turnout and put up a suitable fence they would have things in pretty good shape.

The school building is generally in good condition. The visitor was received cordially by the teacher, Miss Mary R. Ogle, who seemed to have the esteem and respect of her pupils. Good order prevailed during the visit and the children manifested deep interest in what was said to them. The schoolhouse is well supplied with books and the maps and charts are especially good. They yet have the old fashioned oak stove but it keeps the room warm though of course those who sit nearest are too warm if the remote ones are comfortable but it is not a matter for criticism. Some pictures have been secured by the teacher but the directors would do well to place on the walls more portraits of eminent men. The schoolroom furniture is of the best, the black walls are in good order and an air of prosperity prevails.

A pleasing feature of the visit came when the writer was showing a picture of a light house. He had shown it in a number of schools and hardly in any of them had he found a pupil who knew what it was as was natural, as we live far inland, but at Prairie Union a little fellow not more than 10 or 12 years old, told what it was and explained its uses which was indeed creditable.

GIRL CHOOSES FOSTER MOTHER

Chicago, Oct. 29.—A mother's tearful plea for her daughter, lost to her through misfortune, failed to overcome the love the girl had developed for a kind foster mother when the two forces were matched in the county court here today, and Mrs. Lena W. Mappin went back home to Hot Springs, Ark., disappointed and brokenhearted.

Mrs. Helena Mildner who has raised Little Anna, daughter of Mrs. Mappin by a former marriage since the child was forced from its mother through the later's adversity, retained the custody of the girl in a legal fight. Judge Owens left the decision with the child.

"I don't know my real mamma," said the girl, "Mrs. Mildner is so good to me I want her as a mamma."

The court allowed her decision to stand.

CARAT WEIGHT IS REDUCED.

New York, Oct. 29.—Fifty of the leading jewelers in the United States voted today to adopt the metric carat as the standard weight for diamonds. Under the new standard a carat will weigh 200 milligrammes; under the old its weight is 205..3 milligrammes. The reduction in weight is two and one-half percent. The change will become effective July, 1913.

The new standard weight is known as the international carat and is in use everywhere except England, Holland, Belgium and the United States. A committee was appointed to ask congress to make it the legal carat in this country.

OREGON MOTHERS' CONGRESS.

Portland, Ore., Oct. 29.—A strong effort to have the state establish a pension fund for dependent widows is to be made by the Oregon Congress of Mothers, which assembled in Portland today for its annual session. The proposed measure has the indorsement of Governor West and many other persons of influence.

IN INTEREST OF GOOD ROADS

ENTHUSIASTIC GATHERING HELD AT WHITE HALL.

Representatives of various Towns Between Jacksonville and Alton Meet to Further Plans for Hard Road Thoroughfare—Mayor Davis Named a Vice President.

The White Hall Good Roads club held a meeting Tuesday in White Hall, which was largely attended and the gathering was enthusiastic in every way. Delegates were present from a great many of the towns between Alton and Jacksonville and a temporary organization was perfected. One of the great purposes of the club is to interest the various towns along the way in the proposition and if possible secure this road as part of the great thoroughfare between Chicago and East St. Louis, for which state road it is expected that the next legislature will appropriate a sufficient sum to begin the work.

C. A. Ruckel of White Hall was elected temporary chairman of the meeting and E. C. Boehm of White Hall, secretary and treasurer. The purpose of the meeting was set forth and representtives from the various towns were named as temporary vice presidents. The chairman and secretary were appointed to draw up a constitution and by-laws to be approved later by the vice presidents, who by virtue of their office constitute the board of directors. The vice presidents named, follow:
J. M. Ryrle, Alton.
W. L. Walters, Godfrey.
Dan Runderland, Delhi.
Dr. H. H. Chapin, White Hall.
Dr. H. W. Smith, Roodhouse.
Dr. W. T. Knox, Manchester.
Edward Whitlock, Murrayville.
George W. Davis, Jacksonville.
Charles F. Stelvel, Granite City.
W. F. Waggoner, Carrollton.

Other towns along the route not represented were Jerseyville, Kane, Wood River, Madison and Venice. There are a number of other places that have manifested an interest in the project and it will be the duty of the various vice president to see that the Good Roads movement is furthered in their respective counties.

About three weeks ago C. A. Runkel, E. C. Boehm, Dr. H. H. Chapin of White Hall, David Estaque of Jacksonville and Dr. Waggoner of Carrollton, blazed the proposed route by painting a white band on all the telephone poles and other places quite visible, so that it is now possible for autoists and other travellers to find the route without asking any questions. It will be the purpose of future meetings to work toward the end of making the route, as mentioned above, part of the hard road, which is to be constructed from Chicago to East St. Louis. As the road outlined now will take in more towns, than a direct route south from Springfield, it is planned to make the Jacksonville and Springfield road part of the big state road. No name has been given the general club, but some one has suggested that it be called the "White Way." Alton citizens are taking an unusual interest in the movement and were well represented at the meeting on Tuesday. Among the business men from that city were George H. Moosher, secretary-manager of the Alton Board of Trade, and J. M. Ryrie, a wholesale groceryman.

After the meeting of yesterday the 75 visitors were taken an automobile ride in the vicinity of White Hall to inspect the excellent roads of that community. This is a time of the year, after the fall rains, to put the roads in better shape by using the drag. Nothing will so benefit travel for the winter season and a great many of the farmers have already experienced the great value of devoting a little time to this work.

LEE BAVINGTON IN BOSTON.

The following from the Shoe Retailer, published in Boston, Mass., will be read with interest:

"Lee Bavington of Jacksonville, Ill., is a new salesman at Hanan & Son's store on Dearborn street. Selling shoes is second nature to Mr. Bavington, for he has been brought up in the business. His father owned a shoe store in Jacksonville for a number of years, until last year when he sold out. After the business was straightened out, Lee Bavington came to this city where his brother had preceded him by three or four years. The two brothers resemble each other closely as you may known when the Retailer representative on meeting the late arrival, stopped to speak to him, mistaking him for his brother Frank, who is employed at O-G.'s. On apologizing, he learned the identity of the young man. Both of the boys are good shoe men—it's bred in the bone."

SAYS COLD STORAGE PLANTS LESSEN COST OF LIVING

Chicago, Oct. 29.—Cold storage plants are not facters of the high cost of living; rather they are contributors to lesser cost price of many necessities of life, if the declaration of Frank A. Hoyne of New York, before the National Poultry, Butter, and Egg association is to be taken as a correct view of the ecenomics food situation. "Cries of cornering the market in various necessities and raising prices of commodities beyond the reach of the poor is without foundation," he said. "Instead we keep prices down at times when, formerly, certain edibles were unobtainable by the poorer classes.

"High prices at one period of the year because of storage plants simply means much lower prices than otherwise at other times of the year."

GROW LARGER GRAIN

Professor De Vries Tells of His Recent Experiments.

Eminent Scientist Plans to Increase the Size of the World's Food Plants—New Species at Once.

New York.—Prof. Hugo de Vries, director of the American botanical garden and the recognized dean of botanists, lectured at the New York botanical gardens on his recent observations and experiments in the mutation of plants. Many scientists attended the lecture and lauded Professor de Vries as "the successor to Darwin and a great benefactor to the nations."

Doctor de Vries, a man of about sixty years, does not mind being called a successor to Darwin, whose work he has adopted. He would deny, however, that he has gone further than Darwin in his understanding of plant life. It was exactly the divergence between Darwin's conclusions and his own conclusions that constituted the subject matter of Doctor de Vries' lecture.

Darwin, it is recalled, explained the origin of new species by the theory of gradual variation. Doctor de Vries, on the other hand, while he admits that there are no end of gradual variations in plant life, adds that new species also come into being by "leaps and bounds" in a single day, as it were. He explained his theory by the exhibition of slides illustrating his own observations.

The best illustrations of the mutation of plants, Doctor de Vries noted in such flowers as the foxglove, daisy, evening primrose and marigold. In his own experiments, starting with an ordinary single daisy and keeping all the seed and planting it, he noticed second year daisies having twice as many petals as they had the first year and at the expense of a diminishing center. Continuing the selection of the seed from the exceptional specimens in each daisy patch he grew within four years a daisy which had no center seed pods whatever, and which had increased its petals or ray flowers during that time from twenty-one to two hundred. Needless to say, the new flower did not resemble the ordinary daisy at all, and it remained intact as a distinct species of flora.

This illustration was evidence, Professor de Vries maintained, of the necessity of increasing the yields of all plants, so that the increasing population of the future might not want. His optimism in the development of plant life extends to wheat and rice and the other grains, although he said he was not yet experimenting in those fields.

"Doctor de Vries is not rivaling our own Burbank," said Dr. W. A. Murrill, director of the New York botanical gardens, after the lecture. "He stands supreme in his own line of endeavor. His experiments are purely theoretical. Burbank tries to develop the biggest plums and the biggest potatoes, but de Vries tries to make two petals grow where but one grew before. He is paving the way for the bigger Burbanks of the future.

"Our experimental stations, you know, are practical, and they seek practical results in the culture of foodstuffs. But some day that line of experimental work will be exhausted, and scientists will ask for something new. Then some one will apply, in a practical way, the principles which Professor de Vries is now laying down. The secret of the future is to be able to repeat exactly by agriculture the mutations as observed now in nature. That is the work of science, and that is where the new and bigger Burbanks will have their future."

PLANT MISSION IS SUCCESS

Government Entomologist Wins Important Concessions From England, Belgium and Holland.

Washington.—After several months of a tour of diplomatic missionary work in the interest of American plant interests, Dr. L. O. Howard, government entomologist, has returned to Washington. Dr. Howard conferred with the agricultural officials of Great Britain, Germany, France, Belgium and Holland.

The principal result was that England, Belgium and Holland agreed to put into operation a system of government inspection of plants instead of having that inspection performed by their nurserymen.

The latter, it was feared, would meet the expense of raising the prices to the American market. The French government is expected to adopt this government-inspection plan later. Germany has given no assurances.

BEGIN MEMORIAL TO HUGO

Corner Stone of Monument to Author Is Laid on the Field of Waterloo.

Waterloo, Belgium.—The first stone of a monument to Victor Hugo was laid on the battlefield described by the French poet and novelist in "Les Miserables." A great throng of French and Belgians attended. The memorial will be a simple granite column symbolizing Hugo's appeal for international peace. The relic house erected near the farmhouse where Napoleon established his headquarters was thrown open for the first time. There have been gathered bones and weapons collected from all parts of the field.

Motherhood

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes. Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

GENERAL MARKET NEWS

STORMY WEATHER BRINGS AN UPTURN

Bearish Cables Received Later, However, Causes Weakness in Wheat

(By Associated Press.)

Chicago, Oct. 29.—Blizzard conditions expected to interfere with farmers' deliveries northwest brought about an upturn today in wheat but failed to prevent weakness later due in the main to bearish cables. The close was easy, ⅛@¼ to ⅜c under last night. Corn finished ½@⅝ to 3⅝c down, oats off ⅛ to ¼ and provisions at 2½ to 20@22½c decline.

Stormy weather in the spring crop belt would have had greater effect on the wheat market were it not for assertions that country elevators were filled, and that the movement to terminal centers would not be hindered much, if at all. Considerable buying, however, resulted from reports that large quantities of wheat in North Dakota fields had not yet been shocked and would be seriously damaged.

December ranged from 92@92⅛ to 92¾@92⅞c, with last sales ¼@⅜c net lower at 92⅛c.

Unexpected weakness developed in the corn trade. Husking returns were said to indicate a rate of yields far above previous conditional figures and also in excess of anything ever before obtained. There was general unloading in which a prominent speculator was supposed to have had a large part in the extreme depression seized the October option which at one time showed a drop of four cents, but transactions were chiefly deferred futures. December fluctuated between 52½@52⅝ and 53⅜@53¾c; closing heavy 1@1¼c net lower at 52½@52⅝c.

Oats increased in activity and weakness as other cereals declined. December swung from 32⅛ to 32½c; closing ¼c lower at 32⅛c.

Severe declines in the hog market carried down provisions. May pork dropped 20@22½c.

NEW YORK STOCKS.

New York, Oct. 29.—After several days of comparative calm today's stock market as subjected to another wave of liquidation and a series of bear attacks which sent prices to the lowest level of the current movement. The selling derived much of its impetus from conditions abroad, where most markets continued to manifest considerable apprehension. Undoubtedly, however, the decline was materially assisted by the aggressive attitude of a bear faction here, which has become emboldened not only by the tension across the water, but by such home factors as money and politics.

Canadian Pacific was weakest of the international group, declining more than two points in London before our opening. Its maximum decline here was seven points, from which it made but slight recovery. The urgency with which this stock has been offered on the European exchange points to an over-extended bull interest.

Reading and Amalgamated copper also were singled out for short selling, and other coppers reflected the change which is said to have come over the condition of that industry. United States steel, too, was the object of extensive bear sales, with resultant substantial declines.

MARKET LETTERS.

Chicago Live Stock Market.

Chicago, Oct. 28.—Oliver S. Green with Herried & Co., U. S. Yard, Chicago, Ill., gives the estimated receipts for Monday, Oct. 28:

Cattle, 24,000.
Hogs, 40,000.
Sheep, 55,000.

Prime long fed steers were again scarce and one car load of choice short horns averaging 1593 at $11. About 10 carloads, $10.10 to $10.50. The best cattle are in a class by themselves and were the only kind that would interest the buyers during the early hours of trading. Other grades were weak and generally 10c lower than last Wednesday and places noted where they were 15 to 20c lower. The western markets were liberally supplied as were also the markets farther east. About 6000 of the drop of cattle to day were western steers. Two loads of the Lane Alberttas and from High River, Alberta, reached $10, but they were not as prime as the $10.25 Canadians reported last week. There was a smaller supply of butcher stuff and that market was active and 10 to 15c higher than last Wednesday. Bulls sold steady, calves weak to lower than Friday, stockers and feeders about steady. We quote:

Choice to heavy prime beeves, $10.25 to $11.

Good to extra prime yearlings, $8.60 to $10.75.

Common to medium yearlings, $6.50 to $8.25.

Choice to heavy beeves, $9.50 to $10.15.

Good to choice corn feds, $8.30 to $9.40.

Medium to good short fed, $7.90 to $8.20.

Fair to good grass steers, $6.60 to $7.30.

Common to plain grass steers, $6.25 to $6.50.

Inferior to rough grass steers, $5.60 to $6.20.

Fat cows, $4.25 to $6.60.

Heifers, $3.90 to $8.00.

Bulls, $4.00 to $6.75, and fancy would reach $7.00 had any of that kind been available.

Rough heavy calves to good veals, $4.00 to $9.50.

Good to prime veals, $9.75 to $10.25.

Inferior stockers to fair mixed feeders, $4.00 to $6.00.

Feeders, fair to good, $5.75 to $6.40.

Feeders, selected 850 to 1050, $6.50 to $7.40.

Stockers, selected 500 to 700 pounds, $5.40 to $6.40.

The hog market broke 20 to 25 cents, top 30c off. Bulk sell from $7.90 to $8.10; best reached $8.30.

Sheep and lambs generally steady with last Friday. Market was very uneven all day, but a fairly goood clearance was made.

Native ewes, $2.50 to $4.50.

Native yearlings, $4.50 to $5.50.

Montana feeding wethers, $4.25.

Native lambs, $5.25 to $7.00.

Montana feeding lambs, $6.25 to $6.40.

Washington lambs, $6.00 to $7.00

Kansas City Market.

Kansas City Stock Yards, Oct. 28.—Heavy buying for the country trade was again the feature of the market last week, about 30,000 head being taken during the week. That was 40 per cent of the total supply. Buyers wanted stock cattle more than feeders, and more of the feeders were of the thin kind, intended for a rough passage through the winter, finishing out in the mild weather next spring and summer, on grass, not a great many going directly into dry lots for full feeding. The market held about steady during the week, with middle class stockers 10 to 15c lower the last half of the week. A larger number of cattle came direct from the range last week than hitherto, and buyers were able to satisfy any kind of desire for either stock steers or feeders. Thirteen cars of two year old Hereford panhandle steers sold at $7.15, weighing 908 pounds, and a large number of panhandle ones and twos sold at $5.50 to $6.75. Colorado cattle carry a good coat of hair, and colors are rich, which together with their good breeding appeal strongly to buyers. Colorado feeders ranged up to $6.90, stock steers $6.75 and stock heifers $5.20. Top native feeders last week brought $7.60. A year ago the highest price paid for feeders was $6.25 and for stockers $5.50. An Atchison county, Missouri, buyer secured three cars of unbranded stock steers, loose hided and growthy, 708 pounds, at $5.25. An Indiana buyer picked up a load of well bred native yearling heifers, 605 pounds, at $4.90. The offerings are running the whole gamut now and will contnue to do so this week and probably next. Receipts to day are 39,000 cattle, including 3,000 calves, market steady on nearly everything, cows and heifers 10 to 15c higher. Estimate for to morrow is 18,000, indicating that the total for this week will fall a little short of last week, though it will be 15,000 more than same week last year. The make up of receipts is more largely range cattle, from the Panhandle New Mexico and Colorado, and fewer from nearby territory, than a few weeks ago. Short fed steers sell at $6.50 to $10, range beef steers $4.75 to $7.50, quarantine steers $4.25 to $5.75, native and range cows and heifers $4.00 to $6.50, veal calves $6.50 to $9.00, bulls $3.75 to $5.00.

Lots of Beautiful, Glossy Hair, No Dandruff---25 Cent "Danderine"

Hair Coming Out?—If Dry, Brittle, Thin or Your Scalp Itches and Full of Dandruff—Use "Danderine."

Within ten minutes after an application of Danderine you cannot find a single trace of Dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Adv.

Feel Bully! Head Clear, Stomach Sweet, Bowels Right---"Cascarets"

You men and women who can't get feeling right—who have headache, coated tongue, fould taste and foul breath, dizziness, can't sleep, are nervous and upset, bothered with a sick, gassy, disordered stomach, and are all worn out.

Are you keeping your bowels clean with Cascarets—or merely dosing yourself every few days with salts, cathartic pills, castor oil and other harsh irritants?

Cascarets immediately cleanse and sweeten the stomach, remove the sour undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. A Cascaret tonight will straighten you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular and make you feel cheerful and bully for months. Don't forget the children—their little insides need a good, gentle cleansing too.

HAIR NATURALLY ABUNDANT.

When It is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

The Best Treatment for Itching Scalps, Dandruff and Falling Hair

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura ointment on the scalp skin rather than on the hair. The next morning, shampoo with Cuticura soap and hot water. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair. Cuticura soap and ointment sold everywhere. Sample of each mailed free, with 32-p. Skin Book. Address "Cuticura," Dept. 3, Boston.

Tender-faced men shave in comfort with Cuticura Soap Shaving Stick, 25c. Sample free.

CRACKERS BEND.

Mrs. Elmira Wiswell of the north end has been confined to her bed for a few days with a bad case of tonsilitis. She is reported better at this writing.

Othie Holt moved his family and effects to Lone Oak Monday. We believe Mr. Holt will assimilate with the Benders all right.

Rev. J. G. Reed has had good audiences at his meetings at Grace Chapel all last week. The people have given the very best attention and the preacher has been giving us the very best of sermons. A good interest is being manifested and the meetings will continue.

Mr. and Mrs. A. H. Coffman of Jacksonville took dinner at Lone Oak Sunday.

We consider that we had the finest lot of people at our sale that could possibly be brought together; remember this includes the ladies and children, and they were good buyers too. We were very well satisfied with the bidding, and the adies' Aid went well pleased with the way the people got away with the good things they had prepared for this occasion. George Wright was the champion pie eater, declaring it was well worth the trip to the Bend just to be privileged to eat those luscious pies and drink the amber coffee. When it comes to eating pie 'let George do it." Mr. Jed Cox is a very sober fellow and never indulges in any kind of fun during business hours, therefore jokes were scarce, but Jed is a money getter, and Fred Henderson is the fellow to keep the money matters straight, as we can prove by recording the only joke that was pulled off, and that was not done intentionally. Austin Patterson of the Ebenezer neighborhood is a very enterprising young man, but with all his snap he could not manage to attend two sales on the same day, at the same hour; so he instructed Mr. Mason of Gold avenue to bid on a cow and calf for him. Mr. Mason expected to have company for dinner, so he instructed Rev. Baxter Hale to do the bidding, provided they were sold during his absence. The cow was knocked down to Preacher Hale and at the close of the sale Mr. Mason gave his check for $70.50 and left the cow in the pasture. We were not present when this sale was made, neither did we look at the names on the checks and we took his check and turned it inday when Mrs. Mason 'phoned to Mrs. McCarthy that Mr. Mason had bought the cow for Mr. Patterson and that he would come for her that afternoon and could leave a check for her. As Mr. Mason had not moved the cow, we naturally supposed that he had not paid for her and the message from Mrs. Mason sounded as if Mr. Patterson was to pay us. When he came after the cow, we took his check and turneed it into the bank Saturday morning. Mr. Mason called Saturday noon to know if Mr. Pattersono had left a check for him. He had not. Things stand this way. Austin Patterson has the best and highest priced cow in the neighborhood. We have $141 and Mr. Mason has the sack to hold. See?

We find that we have many warm friends scattered over the country. One friend near Concord asked us to come and make our home with him for a short or a long time, or until we were ready to start south, and he was in good earnest, too, and is able to back up his offer. Two good lady friends of Literberry have a house selected for us in that thriving town and will make us trouble if we refuse to occupy it.

We almost forgot to record the best joke of the day, probably because it fell upon us. We had the Mitchell car billed and intended to sell it, but Mrs. McCarty demurred some and on the morning of the sale remarked to Cap Taylor that she hoped the car would not sell. Taylor said, "You needn't worry over that; she wont sell." We shined her up nice and cranked her up a few hours before the crowd arrived so there would be no delay in running her out of the garage, but in the afternoon when we told Cap to run her out, she was dead as she could be and all the coaxing by friends and experts could not induce her to move. "She didn't sell.

The Sunday school rally at Grace chapel on Sunday afternoon was a success, nevertheless the people were disappointed at the absence of the Jacksonville speaker, Mr. Watt. Rev. J. G. Reed made an excellent talk. Master Owen Smith recited in fine style, the only recitation on the program. The Ogle sisters sang "Angels Get My Mansion Ready," while Miss Alice Vallery played the accompaniment. The Loughary sisters also sang a duet. A good collection followed and everybody was well pleased.

CONCORD.

Miss Nellie Martin of Jacksonville visited Mr. and Mrs. A. W. Smith over Sunday.

Samuel Goodpasture of Concord who was overcome by artificial gas in the Goodell hotel, Beardstown, Saturday is still in a serious condition this Monday afternoon, having been unconscious since found Saturday about 6:30 a. m. His daughter, Mrs. Carl Turley, and husband and members of the I. O. O. F. of Concord lodge attended him, also Drs. Sohler and Shriveer of Beardstown. Dr. J. M. Swope of Arenzville Ark lodge, I. O. O. F. of Beardstown aiding in every possible way. Upon the advice of the physicians he was removed to Dr. Shiveer's sanitarium Monday afternoon and all wish a speedy recovery.

Born to Mr. and Mrs. Robert Hacker, a son. The father is confined to his bed with tuberculosis which caused the loss of his first wife.

E. G. Caldwell of Jacksonville came to Concord Sunday in his handsome Case automobile and took Mr. and Mrs. Austin Smith and baby, James Byron, Mrs. Caldwell and Mrs. Clark, also Miss Nellie Martin of Jacksonville for a visit with estimable household of Geo. L. Lewis in Joy Prairie. All were deeply indebted to Mr. and Mrs. Lewis and family and all for delightful outing that beautiful autumnal day.

Mrs. Al. Cratz was called to Chapin Sunday by the death of a friend.

Mrs. F. P. McKnney of Chapin was here Friday returning from a visit with her sister-in-law, Mrs. Irene Smith and son, Wilson of Waverly, friends and relatives in Springfield, her Uncle Jeptha Willard and family in Decatur and her son, Dr. Stewart McKinney, who is an "interne" in the Presbyterian hospital in Chicago.

Mrs. Elizabeth Herd of Jacksonville was in Concord returning from Winchester and reports her sister Mrs. North much improved and great niece, Miss Lucille North formerly of the Illinois Woman's college gaining rapidly in health also, which will be joyful news to the many friends of Miss Lucille's family.

Miss Coultas and several accomplished young ladies of the I. W. college were here Monday returning to that noble institution which is doing much for the betterment of the coming generations of this magnificent country of ours.

Capt. Henry Hilt of Jacksonville was in Concord Monday between trains.

Elza Harmon, Wm. Cooper, Henry Williamson and John Rexroat went to Beardstown Saturday from the Concord lodge I. O. O. F. to assist in caring for their brother Samuel Goodpasture, the trip being made in Mr. Harmon's auto in 45 minutes, part of the way through water in the swamps. Others who have been on the same humane errand were Jas. A. Smith, Ora Ham, Spencer Smith, John Mick, John Kershan, John Delany, Glenn Caldwell, Thurston Hutchinson, John Yeck and Geo. Johnson.

Mr. and Mrs. Farrington were in Concord Monday on their way home from a visit in Glasgow.

Mesdames Mecca Yeck, Jno. Micks, Misses Edna and Flora Filson, Eva Gaddis, Ona and Ina Blimling, Cecil Behler, and others gathered and delivered apples Saturday to raise funds for the new M. E. church here. These and the other ladies of the aid of the M. E. church will serve dinner and supper election day, benefit M. E. church.

FINAL SPECIAL TAX NOTICE.

In the matter of the special tax of the city of Jacksonville for the construction of a brick pavement on Franklin street.

Notice is hereby given to all persons interested that the board of local improvements of said city has heretofore filed in the county court of Morgan county, Illinois, in said cause a certificate showing the cost of the work, the amount reserved for interest, and also that the improvement has been constructed in substantial conformity to the requirements of the original ordinance therefor.

The hearing to consider and determine whether or not the facts as stated in said certificate are true will be held in said court on the 8th day of November, A. D. 1912, at 9 o'clock or as soon thereafter as the business of the court will permit.

All persons desiring may file objections in said court before said day and may appear on the hearing and make their defense.

Board of Local Improvements of the City of Jacksonville, Ill.

FOOLS TWO SPOUSES

Woman Divided Time Between First and Second Husbands.

Wife of One Switchman Meets Another, Likes His Playing on Harmonica and Weds Him—Keeps It Up Two Months.

Chicago, Ill.—A wife who for two months divided her time between two husbands, fooling both of them by naming her mother as an alibi when she returned late to either home, was found in the person of Mrs. Stella Carabine-Galley, according to James E. Carabine, who says he is the original husband, and had the wife arrested as a bigamist.

Both husbands are switchmen, and out of the city about half of the time. Mrs. Carabine-Galley is twenty-four years of age and rather pretty.

Oscar Galley, the second husband, was also in a cell, charged with marrying a woman while he had knowledge of a prior husband. He told the police he understood the woman had obtained a divorce from Carabine.

Everybody involved is agreed on some facts, namely: Carabine lost his job a few months ago and the wife, who had to go out to work in a hotel, heard Galley playing on a harmonica, liked the music and married him.

Carabine said he married his wife six years ago and lived happily until he took sick last spring and lost his place. He was hunting work when the wife volunteered to go out and earn the family living for a time. When she found work in a hotel, Carabine stored the furniture. He regained his health and found a new job.

Meanwhile, he said, Galley and the harmonica had interested the wife. The second marriage took place March 9 last in Great Bend, Ind. During the folowing two months the wife, according to Carabine, was kept busy fooling her two husbands.

Then he found out about Galley, and there was a quarrel over Galley, whom Carabine looked upon as a suitor more or less harmless. The wife left Carabine, who some time later learned of her second marriage. Carabine searched for the wife for four months.

He had stored his furniture in a storagehouse, and it was there Galley was arrested, when, representing himself as Carabine, he attempted to obtain possession of the household goods. The woman was arrested while waiting for Galley to appear with the furniture to fix up a flat.

The police today permitted Galley to amuse himself in jail with the harmonica. Mrs. Carabine-Galley could hear the seductive music in her distant cell.

OBJECT TO WEARING CLOTHES

Governor of British Province Has Great Trouble After Ordering Reform in Garb.

London.—The difficulties of the clergymen and social reformers of more enlightened countries in their efforts to compel the fair sex to put more cloth into their skirts pale into insignificance beside the troubles of the local governor of Inhambane, British East Africa, who has almost caused a war by ordering the native maidens to attire themselves in European garb.

The order particularly insisted that the native women should not appear in public without skirts under pain of some grave penalty not specified.

Never was an apparently innocent sumptuary law received with such an outburst of rebellion. The commercial council resigned in a body and the Indian storekeepers who deal in the articles of attire favored by the native ladies threatened to shut up shop in protest. The native belles took even more drastic action by refusing to come near Inhambane at all, with the result that the town was soon in danger of a famine in vegetables, eggs, poultry and other necessary food supplies. The women who lived in town prepared to leave.

The opposition became too hot for the governor, who withdrew the obnoxious decree, and the belles of Inhambane again go about in their scant native costumes.

BIGGER HOSE FOR OUR WOMEN

Outdoor Exercise Develops Legs and Feet of Fair Americans, Says Authority.

Boston.—Outdoor sports and athletic exercises have so developed the American woman of today that she has bigger legs and feet than her mothers and aunts, according to the American Wool and Cotton Reporter of this city, the official organ of the textile industries of the country.

The trade paper avers that the big hosiery mills have given orders for the construction of new looms for the production of hose in sizes larger than have ever been placed on the counters for milady's inspection.

The new looms are the result of quiet "tips" given to the textile mill officials by the hosiery buyers.

"It is these buyers, too," adds the paper, "who, of all others, have the best opportunity of noting the rapid and marvelous progress being made of late years toward the development of the real ideal figure. This is the natural result of our women resorting to every outdoor sport and athletic exercise which were for so long enjoyed only by the other sex."

Corset manufacturers, it is said, have been similarly "tipped off" by the buyers in their line.

HELD PUBLIC SALES

Frank Mawson Disposes of Property and Will Move His Family to Tennessee. — Wm. Luken Sold Stock and Farming Tools.

Frank Mawson, who resides south west of the city held a public sale Tuesday afternoon, which was largely attended. Everything commanded good prices and the bidding was spirited. Mr. Mawson has purchased a farm near Lawrenceburg, Tenn., where he expects to move his family next week. Joseph Vedder who formerly lived at Nortonville, but has been residing on Lincoln avenue the past year, will reside on the Mawson farm.

At the sale milk cows brought from $70 to $83.33 per head; horses from $40 to $170; brood sows, from $20 to $56; shoats, (spring), $9 to $16; timothy hay, 55c per bale; wheat straw, 25c per bale; oats straw, 33 1-2c per bale; clover hay, 45c. Capt. John E. Wright and son C. Justus Wright were the auctioneers and Richard Reynolds was the clerk.

William Luken Sale.

A public sale was held at the farm of William Luken, one-half mile west of Orleans Tuesday, which was largely attended and the stock brought high prices. Farming implements sold well, spring shoats brought from $9 to $15.10 per head; sows $37.50 and sows and pigs, $45 to $60; yearling steers, $47.50, cows, $77.50 to $79.00, dry cows from $40 to $50, mare and colt, $225 to $250; two-year-old mares, $160; yearling colts from $110 to $115; geldings, $200. Charles Stevenson acted as auctioneer and George Graff was the clerk.

OKLAHOMA CAPITAL FIGHT.

Oklahoma City, Okla., Oct. 29.—Almost overshadowing the presidential contest in point of interest for Oklahomans is the state capital fight which will be settled by a vote of the people in the election one week from today. Guthrie is putting up the fight of her life to recover the prize lost two years ago, while Oklahoma City is waging a state-wide campaign to retain the capital.

Guthrie obtained the initiation of a proposed amendment to the state constitution making that city the permanent capital of the state. This amendment will be voted on next Tuesday. If Guthrie wins there will be little chance of the capital being moved again, as the matter of obtaining an amendment to the constitution is difficult. For the same reason, however, it is generally conceded that the former capital has great odds to overcome if it wins against Oklahoma City.

PRESIDENT TO ATTEND LAUNCHING

New York, Oct. 29.—A battleship surpassing in size any vessel now flying the flag of the United States navy will be launched tomorrow morning from the ways of the New York navy yard, in Brooklyn. This is the dreadnought New York, which when completed will have a displacement of 27,000 tons, or one thousand tons more than any battleship now afloat, President Taft is expected here to see the giant ship take its first plunge into the waters of the East river. Secretary of the Navy Meyer, Governor Dix and a number of other public officials also will attend the launching. The christening ceremony will be performed by Miss Elsie Calder, daughter of Representative William M. Calder of Brooklyn.

The New York when in commission will be manned by sixty-three officers and will have a crew of more than 1000 men. Exclusive of armor and guns, the battleship will cost about $6,000,000. The principal dimensions and features of the big battleship are as follows: Length on water line as designed, 565 feet; breadth, extreme, as designed, water line, 95 feet 2 5-8 inches; mean trial displacement 27,000 tons; mean draught, 28 feet 6 inches; total coal bunker capacity, 2850 tons; total fuel oil storage, 400 tons; speed on trial not less than 21 knots.

In the main battery the New York will carry ten 14-inch 45-caliber guns. The secondary battery will consist of twenty-one 5-inch rapid fire guns, 51-caliber; four 3-pounder saluting guns; two 1-pounder semi-automatic guns for boats; two 3-inch field pieces, and two machine guns.

REPUBLICAN PARTY HAS GREAT RECORD

Hon. J. J. Brown Made Address at Court House Tuesday Night—Laid Stress on Tariff Dangers.

One of the strongest addresses of the campaign was made last night at the circuit court room by Hon. John J. Brown of Vandalia.

County Chairman M. L. Hildreth called the meeting to order and with complimentary remarks introduced Hon. J. J. Reeve as chairman of the evening. The gentleman in taking the place said it was a good thing to hear and old time Republican speech as would be the case on this occasion and by a man whom he had known for many years and always had found in the right place, Hon. John J. Brown of Vandalia.

Mr. Brown said it was indeed pleasant thus to be introduced and to stand in bodies of men like Mr. Reeve, whom he had known to be true and right hearted. He said he also loved Jacksonville; his daughter had been educated here and he had many friends in the city.

Refused to Bolt.

"The Republicans and Democrats are starting out in straight lines and going to work while the Progressives are very anxious to let it be known they are about and sometimes I think it would be well for us to spend most of the time til next Tuesday doing the same thing I believe in a man accepting the decision of the convention when he is a candidate and going about his duty and standing by the party. I wanted much to be nominated for governor but the people said they preferred some one else and the Progressives thought I would make a fine recruit for their party but I did nothing of the sort. What would your opinion be of me if I had done otherwise? It would be base to scout around and abuse the party because I was defeated in the convention unless that party was manifestly wrong. I believe the Republican party is right and I am from principle for the whole ticke from Wm. H. Taft down to th candidate for coroner of my county.

"Now whatever contributes most to the welfare of the land does the most good. When a party knocks at the door of the government and asks to be admitted we have a right to know what to expect of it. What was its record when it was in before?

The Democratic party says its slogan in this campaign is a tariff for revenue only. The wall of protection they would wholly tear down. The Republican party has placed that wall there high enough to keep the products of the poorly paid workmen and women of the old world from coming here and reducing our laboring people to the same level. Are we satisfied with times as they are now. Is not business good, people employed and farm products bringing good prices

The Free Trade FoHows.

But the Democrats say the country has no constitutional right to impose a policy of protection on the nation. They claim for free trade all the good things of the world They claim it will put people to work, make living cheap and things happy generally. They had a chance to try that from 1893 to '97 and how was it then? They had the president and both branches of congress and what was the result? A bill called the Wilson bill and what did it accomplish. Ah, my friends; if it were only for the offices that this campaign is being fought I would go home tonight but I am struggling for principles and the right of every man and woman for work at free men's prices. I want to see the farmer, the manufacturer and the workman all joining hands, helping each other and enjoying the good things of life? Did free trade do that for us from 1893 to '97? Go through the land at that time and what did you see? Idle men everywhere; mills with cold furnaces men idle on every hand, soup houses galore. Of course prices were down but what good did that do? If corn was cheap what was that to the man who had no money to buy it. Chattel morgages were given and foreclosed by the hundreds of thousands and want stared people in the face on every hand. That was what free trade did for us. We have the facts and not a theory to confront us. Do we want some more of it again? How is it now? Why, in my county there has hardly a chattel mortgage been foreclosed in years. People have the money to pay and they do pay. Are men idle today? From all parts of the land come up appeals for help. The factories are troubled to get labor skilled and unskilled; ladies are bothered to get help for their housework and so it is all over the land. Do we want to get back to the era of soup houses? Is it not better to buy soup and pay for it than to beg it?

"I see before me Mrs. Reeve, the good lady who is ex-president of the state Grand Lodge of Rebekahs and I know the good work she has done for humanity in that exalted position and how well she filled it. I see before me John J. Reeve, one of the building committee of that great enterprise, men against whom no charge of suspicion of graft ever was made. They are the people who stand for the rights and welfare of the people which are conserved by Republican protection. This is the great issue before the people and if I do not like my treatment at the primaries shall I bolt the ticket?

The Party's Record.

"I have found men for Roosevelt because they were mad. They said the Chicago convention did not do right and they were provoked. The party at large was not to blame for that. The Republican party has done for the nation all that has been accomplished and shall we turn against it because we are not satisfied with the acts of a convention? We cannot mend any evil in that manner. Who ever heard of a party being organized under such circumstances?

"The Republican party has been for the rights of the people and the whole people. It has stood by the nation in a time of peril and guided the ship of state through to a safe destination. It has sustained the nation's credit, kept its currency good, done its duty by the islands which have fallen to us and enacted a policy which has made the land blossom as the rose.

"Compare the record of the Democratic party. What did it stand for in the dark days of the war? What was its attitude toward the nation's credit and obligations; what would it have done for our industries; think of the fallacy of free silver; the absurdity and wickedness of so called anti-imperialism and other financial vagaries. Is that a safe party to have the welfare of the nation intrusted to it?

"I know Chas. S. Deneen and shall stand by him and the state ticket. Compare that with Dunne and his associates; I shall stand by the legislature and congressional tickets and I hope in your county you will stand by your county candidates for they are all right. I shall stand by William Howard Taft for I believe his nomination was as fair as have been the other nominations of national conventions in the past.

"Go to the polls with a full sense of your responsibility and victory is ours."

The speech was greeted with applause and then the eloquent speaker hastened to the door and shook hands with each as he passed out.

ASBURY.

..The revival meeting is still going on, it is expected to go on until Sunday night if the interest still continues. Everyone is cordially invited.

REFORM CONVENTION.

Boston, Mass., Oct. 29.—The National Reform association, the membership of which includes many active workers in the suppression of vice and the improvement of public morals, held its annual convention in Boston today. Delegates from nearly all sections of the country were in attendance. Anthony Comstock of New York spoke on "The Children of the Nation versus the Moral Concer-Planters' of Our Day," and Rev. G. M. Elliott of St. Augustine, Fla., discussed "The Responsibility of the Nation for the Profanation of the Sabath by the United States mail service and interstate commerce."

MINERS OBSERVE JOHN MITCHELL DAY

Hazleton, Pa., Oct. 29.—The miners throughout the anthracite coal region today held their annual celebration of John Mitchell Day. Business was everywhere suspended and many mass meetings were held in commemoration of the successful termination of the 1900 strike of the anthracite men under the direction of John Mitchell, at that time president of the United Mine Workers.

BANKERS FEEL PINCH

Society to Be Organized to Relieve Pressure of High Prices.

Will Buy All Supplies From Producers and They Will Be Handled at Minimum Cost—Has 1,000 Members.

Boston.—Even the fellows through whose hands flow each year millions in good, hard cash feel the pinch of mounting prices. Like the rest, they have contemplated with disgust and chagrin the bill of the butcher, the grocer and the other dealers in household necessities and have grown tired of its constantly growing proportions. They have not been content, however, to sit still under the burden; they have decided that the time has come to do something and the Co-Operative Society of Bank Men is the result. It is, generally speaking, a plan to bring back the so-called 60 cent dollar to something like its face value.

The new organization, which was incorporated recently under the laws of Massachusetts with a capital of $25,000, will start with a membership of 1,000 and will eventually take in a membership in excess of 2,000. Primarily it was founded for the benefit of those who are connected with banks and kindred financial institutions, but its scope may be extended a little to take in others who may prove satisfactory to the original members.

On the whole, the association prefers to do business with the producer, and has already made arrangements to that end in a number of lines. It has been figured that at the outset a large amount may be saved by cutting off the small profits which accrue to a number of agencies before goods reach the average retailer.

In the beginning, the society will endeavor to confine itself to a staple line of goods which may be turned over quickly so that the capital may not be tied up for any long period. These staples will, naturally, embrace meat and groceries, but will not be confined exclusively to them. As the demand arises, a wide variety of articles for household and general use will be added. While the nature of all the merchandise has not been decided upon, it is sure to have a wide enough range to satisfy the calls from customers. There are possibilities in many fields of retail trade. For instance, it has even been suggested that the younger members might be supplied with some sort of sporting goods and might be able to cut down expenditures on such semi-luxuries as golf and tennis balls.

A sizeable economy, of course, will be effected in the selling as well as the buying end. The society has no idea of starting anything like a general store, but will maintain a distributing station at some point convenient to the financial district. Here the goods will be stored not with an intent to display, but for easy and rapid handling.

One element which will be insisted upon will be the handling of only such goods as give reasonable assurance of a quick "turnover." The society will avoid from the start those things which are familiarly known in the retail trade as "stickers." The stock of merchandise must be cleaned up rapidly and a new stock bought. Nothing that will lie on the shelves from season to season will be included in the list of articles in which the corporation proposes to deal. All goods will be sold at a safe margin of profit so that it will be impossible for the society to be caught in even temporary difficulties.

Curiously enough, two men in the financial district were working out plans for some sort of concerted effort among their fellow employes. For some time past Frank W. Chase of the United States subtreasury had been making an investigation into co-operative methods of buying and had been interesting his friends in the advantages of the scheme. At the same time Charles E. Nott of the New England Trust company had been perfecting a similar plan. Neither had at the outset any conception that his ideas would meet with the general approval which later developed.

All the officers and other members of the society who may be called upon to serve in various capacities do so without salary, and the only salary expenses will be for such persons as may be employed in buying and selling.

SWIMS TIED HAND AND FOOT

A Young Boston Woman Made Freak Record in Crossing the Delaware.

Philadelphia.—Following the long swims by Philadelphia girls here recently, Miss Katherine Wallace, a twenty-year-old Boston girl, set a new record by swimming across the Delaware river with her hands and feet tied. Bound hand and foot she was forced to make her strokes with the muscles of the back and shoulders, as she could bend her knees only a little. She made most of the distance swimming first on one side and than another. Several times she showed signs of tiring, but went on pluckily to the finish. Five thousand people gathered at the pier to see her accomplish the feat.

PIPE LINE COMPANIES SEEK INJUNCTION

Washington, Oct. 29.—Arguments were begun today before the commerce court on the application of five oil pipe line companies for an injunction to restrain the interstate commerce commission from enforcing its order requiring them to publish their scale of charges for the inter-state transportation of oil.

Substantially, the court must decide whether the pipe lines are common carriers under the law. The petitioners declare they are not, inasmuch as they transport oil only for themselves and not for the general public.

The government maintains that oil is a commodity of commerce and that its interstate movement through pipe lines subjects it to the power of congress.

FIND RICH ORE DEPOSITS.

Madison, Wis., Oct. 29.—Fifty-two million dollars are about to be added to the wealth of the state of Wisconsin as the result of experiments carried out in the mining laboratory of the University of Wisconsin on the merits of Wisconsin paint materials.

One million tons of rock, containing these materials, it is estimated have for centuries been lying idle in the southwest portion of Wisconsin. Experiments by a university professor developed the fact that he was able to produce, from the same ore paints of any color, all of them proved to be fast colors, and every color, when placed next to the best imported sienna of similar color shows a better body and is more lustrous than its foreign competitor.

The different colors are produced merely by a difference in the length of the roasting period.

SUFFRAGETTE IS RELEASED.

Dublin, Oct. 29.—Miss Gladys Evans, the militant suffragette, who was arrested Oct. 23rd, for failing to report to the police, was discharged today, the magistrate holding that the six days she had remained in jail was sufficient punishment.

Miss Evans, who was sentenced August 7th, to five years in prison for incendiarism, is out on license. After her release again today she declared that no matter how often she was arrested and punished, she would not report herself to the police.

SURE ROCK ISLAND WILL BUY C., P. & ST. L.

Railroad Men Declare That Road Will Be Purchased by Big System Nov. 18—Point to Reasons.

As already mentioned in the Journal, railroad men hold the opinion that the Rock Island is the logical purchaser for the C., P. & St. L., when the road is sold at auction on November 18. The use the Rock Island would have for the C., P. & St. L. in giving access to the great coal fields of Illinois and in connecting up the line from East St. Louis to Chicago. The Rock Island has a line from Chicago to Peoria and the C., P. & St. L. runs from Peoria via Springfield to East St. Louis and St. Louis.

The purchase of the C., P. & St. L. by the Rock Island would be desirable from a Jacksonville standpoint, as it would put this city on the system of another great railroad. No doubt a Chicago service would be added to the advantages the city already has in railroad connections to the great city. The Springfield Journal prints the following story about the probable purchase:

"A direct line from St. Louis to San Francisco, through East St. Louis, Springfield, Peoria and Chicago, will be realized should the Rock Isand railroad purchase the Chicago, Peoria & St. Louis railway at the auction sale to be conducted under the direction of the United States district court in this city Monday, November 18th.

"The Rock Island, which is a part of the 'Frisco system, is, according to railroad men, the most prominent bidder at this time for the property now owned by the Chicago, Peoria & St. Louis and railroad men also declare that the Rock Island, in its endeavor to secure control of the line, will attempt to outbid other roads.

Advantage of Securing Road.

"The advantage of securing the Chicago, Peoria & St. Louis property by the Rock Island is apparent. The latter system has a trackage agreement with the Burlington between St. Louis and Chicago. By this agreement the Rock Island is forced to use another's line for most of its southern passenger and freight business to the Pacific coast. The Chicago, Peoria & St. Louis road enters St. Louis. It also enters Peoria. At Peoria it could be joined to the Rock Island's line, which runs to Bureau, where the line from Peoria connects with the main line from Chicago to the west. Should the Rock Island get control of the Chicago, Peoria & St. Louis road, it would have a direct line from St. Louis to Chicago, passing through the great corn belt and over the great coal fields of Central Illinois.

"The Rock Island's line from Chicago goes to St. Paul and then to the western coast, taking wheat raised in Illinois and other states to the great mills of Minnesota and carrying coal to the western states. The road also contemplates, according to railroad men in authority, placing a number of passenger trains on the proposed route, to link three of the principal cities of the west, St. Louis, Chicago and San Francisco.

Would Improve Present Line.

"Improvement of the Chicago, Peoria & St. Louis road is another thing the Rock Island intends, should it purchase the bankrupt road. The roadbed in places now is badly in need of repair. It is believed that with the roadbed and equipment in proper condition the line through Illinois could be made a paying proposition.

While local officials deny it, it is reported that the United States Express company will aid the Rock Island in the purchase of the Chicago, Peoria & St. Louis road. Should the sale be made it is expected the United States Express company will get the contract for hauling all express over the new line, as at present it takes care of this branch of the traffic on the main line of the Rock Island."

If you must bet see that the hat comes from Garland & Co.'s.

DEMAND FOR SEATS GREAT.

New York, Oct. 29.—The demand for seats at Madison Square Garden for the Progressive rally tomorrow night at which Colonel Roosevelt is to make a short speech has been unexpectedly great. Arrangements were being made today for overflow meetings, but Colonel Roosevelt was not expected to address such gatherings.

FARMER FINDS BODY IN WELL

PRISONER WHO BREAKS JAIL AT WINCHESTER SUICIDES.

William Rhodes, Being Held in County Bastile on Charge of Murdering His Mother-in-Law, Takes His Own Life.

William Rhodes, who escaped from the county jail in Winchester Monday night, as mentioned in yesterday's Journal, charged with the murder of his mother-in-law, Mrs. A. L. Mitchell, committed suicide some time during the night by jumping into a well on the farm of William Ferris, five and one-half miles southwest of Winchester. Several parties had been scouring the country to locate the escaped prisoner and Mr. Stumpf, of Springfield, with his trained dogs, had also spent a greater part of the night in the search.

Coroner Coultas, of Scott county, held an inquest Tuesday afternoon, with the following jury: E. W. Hogan, foreman; Robert Hawk, Edward Burns, James Blackburn, George Yellem and Harry Smothers. They gave in a verdict "that the deceased came to his death at his own hands by drowning in a well."

Mr. Stumpf, with his dogs, arrived in Winchester at 9 o'clock Monday night. The trail was taken up and followed for a number of miles, and at 3 o'clock the hunt was abandoned until morning. he prisoner had gone up one ravine and down another and had crossed his path so many times that the dogs and men were almost worn out by the long night hunt. The body was found by John Little, who works for Mr. Ferris. The hired man had gone to the field to water the horses and noticed a man's feet sticking out of the top of the well. The well had for a lining three sewer pipes eighteen inches in diameter. The refugee had jumped head first into the sewerpipe and disappeared, except for his feet.

The peculiar manner in which Rhodes took his life has occasioned those about the jail to think more seriously about the prisoner's actions of the last few days. He was noticed to act queerly and there were some who thought that he was losing his mind from letting his thoughts dwell on the crime he had committed. As previously mentioned, Rhodes was an invalid for some weeks in the jail, suffered from a severe throat cut, which he alleged was done by some one during the night of the shooting. Dick Coultas, the jail keeper, had been accustomed to unlocking the cell door and going in to help the sick man, and after he got better still went inside the cell to take him his meals. He was considered trustworthy and spoke very little of the crime.

Opinion has been divided since the deed was committed and while there were many who thought he would be convicted of murder in the first degree, there were a number who thought that he would come clear when the facts of the entire case were related.

Mr. Rhodes was about 42 years of age and had been married over six years to Miss Ruth Mitchell. She survives him and two children. He also leaves his father, Lase Rhodes, of West Grove, Ia., and two sisters, Mrs. Mary Brown, of Roseville, and Mrs. Emma C. Luken, of Beardstown. No disposition will be made of the body until word is received from the father.

SENDS ONE HUNDRED DOLLARS TO AID GREEKS

Peter Bacopulos Makes Contribution to Aid in War.

Peter Bacopulos, one of the proprietors of the Jacksonville Candy company sent $100 Tuesday to aid in the war of his native land. The money goes to the Red Cross society and will be used to held those who have to be cared for in hospitals.

Last Monday, the Greeks, who are employed by the Burlington railroad made up a purse of $150 to aid in the war. Several of the employes have gone back home to defend their country and all over the United States there has been a great awakening among the Greeks and thousands of dollars have been contributed.

STRENUOUS COLOR RUSH.

The members of the Senior Prep class and the Middlers of Whipple Academy indulged in an old fashioned color rush Tuesday. The seniors had their colors, lavender and white, floating from the top of one of the loftiest trees on the campus, when morning broke, and the Middlers soon prepared to get them down. The two classes are about equally divided so the contest was a strenuous one. While the fight was on Robert Capps, a middler, un-noticed, climbed the big tree and tore the Senior's colors into shreds. The Middlers succeeded in getting their colors partially up the tree so they were accounted the victors of the day.

GRACE CHURCH SUPPER.

The Grace church supper given in the basement of the church Tuesday night, was largely attended. An excellent menu was served and a neat sum was realized.

TRAIN DELAYED BY WRECK.

Lemmon, S. D., Oct. 29.—Governor Marshall, Democratic candidate for the vice presidency, today delivered an unscheduled speech here where his train was held up for nine hours by a freight wreck. The speech was delivered at the city hall and his audience was composed mainly of passengers from several Chicago, Milwaukee & Puget Sound trains blocked by the wreck.

While the vice presidential candidate was speaking, Mrs. Marshall was busy seeking aid for the family of Brakeman Breitling, killed in the freight wreck, who was reported to have left 11 children.

SOCIAL EVENTS.

Henry Smith, son of Mr. and Mrs. T. F. Smith, was given a very pleasant surprise party Tuesday afternoon by his mother, the occasion being his ninth birthday. The hours, from 3:45 until 6 were very pleasantly spent with various Hallowe'en games and after refreshments were served the children enoyed a large bonfire and marshmallow toast. Among those present were: Beatrice Sargent, Avaniel Smith, Paul French, Harry Fitch, DeSoult Ames, Maurice Johnson, Thomas Smith, John Darsie and Henry Smith. He was the recipient of quite a number of beautiful presents.

Mrs. Sidney Shepley was given a very pleasant surprise party Tuesday at her home four miles southeast of Murrayville, the occasion being her birthday. The surprise was planned by her daughters, Mrs. William McKeane and Mrs. Robert Riley and the guests met at the home of Ira Story, a neighbor. When they arrived at the Shepley residence Mrs. Shepley was engaged in feeding the chickens and she was taken completely by surprise. However, she soon entered into the spirit of the occasion, made her self-invited guests feel welcome and a very enjoyable day was spent. A sumptuous dinner was served and there was a large birthday cake, which was made by Mrs. McKeane. When the postman arrived in the afternoon he brought a large number of post cards, letters and presents from friends who were unable to attend. The afternoon was spent with music and in a social manner and the occasion proved most pleasant. Among those present were Rev. Mr. and Mrs. Hardesty of Manchester.

The East Side Tuesday club met yesterday afternoon with Mrs. J. K. C. Pierson of East State street. There was a large attendance and the gathering was in honor of Mrs. Lloyd Snerly, who leaves the society and will reside in Decatur. It was a chocolatiere party, the decorations being especially beautiful of autumn foliage, maple leaves and branches and oak leaves, chestnut burrs, butter sweet berries, hydrangea being in evidence, the brown idea being carried out beautifully in all the rooms.

The afternoon was spent in sewing the usual program having been dispensed with, and during the hours Mrs. Snerly was presented a book of chocolate recipes, each member contributing one or more favorite recipes. She was also given a beautiful souvenir spoon. The presentation speech was made by Mrs. A. C. Baldwin, president of the society. Her remarks contained a touch of humor and good cheer and the response by Mrs. Snerly was most sincere.

The chocolate idea was carried out in the refreshments, chocolate cake, mince sticks and chocolate drinks being served. The committee in charge of the affair consisted of the president of the society, who was assisted by Mrs. George Hocking, Mrs. Lee E. Fisher and Mrs. J. K. C. Pierson. In every way the afternoon was one of rare pleasure. Mrs. J. H. Rottger of Springfield was among the guests present from out of the city.

PIANO RECITAL BY EDMUND MUNGER

Large Audience Delighted by Excellent Program in Recital Hall.

Academy hall was filled to the doors last night by a representative audience of music lovers who had gathered to hear Mr. Edmund Munger's fall recital.

It is always expected that these recitals will be of especial interest because of both the intrinsic value of the program and the masterly interpretations it will receive by this artist. Mr. Munger was in excellent form and probably pleased his hearers more than on any previous occasion.

The program was followed as published and more than fulfilled the highest expectations of the audience.

Mr. Munger's rendition of Chopin is always a delight and in the B flat minor Sonata, which, in its entirety is new to Jacksonville audiences was simply a fulfillment of the promise given in his former recitals.

The reading which Mr. Munger gave the group of seven fairy tale pictures, written by Eride Korngold, the wonderful child composer from Bruern, Austria, supplemented by the descriptive notes on the program, made clear to everyone the idea which must have permeated the mind of the composer.

The Debussy numbers were new to most of the audience. The exquisite coloring and delicate tone "splashes" of modern harmony made very vivid the imagery suggested by the titles.

The melodious Moszkowski waltz was a graceful and charming close to this program of unusual and delightful variety.

As encores, the Barcarolle of Rubinstein and En Route by Godard, prolonged this delightful program.

IS INTERESTED IN A GREAT ESTATE

Charles Price May Get Share in Valuable Baltimore Possession.

The following special despatch to the St. Louis Globe-Democrat from Denver, Colo., tells about a vast Baltimore estate. Charles Price of East State street states that he is a direct heir of the founder of the Baltimore estate.

The Dispatch Says.

"Charles S. Price 1206 Lorimer street, an engineer in the employ of the Colorado and Southern railway, has just received word which he declares establishes his identity as an heir to the famous $400,000,000 Price estate of Baltimore, over which litigation has been pending for half a century. The estate consists of about 300 acres of land in the heart of the city.

"Through his brother, Francis S. Price of Chicago, who arrived in Denver recently in the interest of vast fortune, he learned that the original title to the land conveyed from Lord Baltimore to Mordecai Price, his great-great-grandfather, in the year 1750, had been found.

"Francis Price is visiting heirs throughout the country in an endeavor to gather further data with which he hopes to establish their claim to the property.

"Litigation has been carried on at intervals of five years by the descendants of Mordecai Price. But the actual proof was wanting until the important document was unearthed lately at New Philadelphia, Ohio, the home of a branch of the Price family for 100 eyars.

"Charles Price of this city is the son of the late Joshua C. Price of New Philadelphia, Ohio, and his grandfather was Thomas Price, a pioneer of Ohio and the founder of the towns of York, Leesville, Harlem Springs and Summerville in Ohio.

"Francis Price declared that as soon as he had succeeded in locating all the heirs to the estate, suit will be filed at once against the city of Baltimore to recover the property.

Choicest Land in City.

"The land was what was formerly known as Pleasant Valley, and comprised approximately 30 acres, now the very center of the business section of Baltimore. It was conveyed, according to Price, by the agents of Lord Baltimore to Mordecai Price near the year 1750 for the sum of eleven pounds. Later Price gave a ninety-nine year lease on the land to the city of Baltimore. This lease, forgotten and lost, until recently, expired several years ago.

"Charles Price said that if he won the fortune he would continue to live in Denver and would probably continue his work as engineer.

COLONEL RETIRES EARLY.

Oyster Bay, Oct. 29.—In keeping with his day of comparative inactivity, Colonel Roosevelt retired early tonight. He was anxious to be in the best possible shape for his speech-making task of tomorrow evening.

ILLINOIS PLAYS BRADLEY SATURDAY

Local College Eleven Will Go to Peoria for Football Contest—Both Teams Evenly Matched.

Local college eleven will go to Peoria for football contest. Both teams are evenly matched.

The Illinois college football eleven will go to Peoria Saturday, where they will meet the Bradley Polytechnic school. Illinois has been handicapped somewhat on account of two of the regular men being out and then practice has not been so stiff as last week. Bradley, too, has been somewhat crippled, both on account of players being out of condition and of dissensions, it is claimed, among the members of the squad. Bradley played Normal last Saturday, the game resulting in an 0 to 0 score. Coach Harmon is confident, however, that his team will be able to bring victory to the home school, so that a big game is anticipated.

The following line-up has been announced:

Right End—Harch or Pierce.
Right Tackle—Ross (captain).
Right Guard—Holmes.
Center—Tandy.
Left Guard—Lukeman.
Left Tackle—Kingsley or Russell.
Left End—McLaughlin.
Quarterback—Stewart or Gary.
Left Halfback—Sorrells.
Right Halfback—Jaccard or Furr.
Fullback—Alford or Darragh.

WITH THE SICK.

Mr. and Mrs. H. H. Evans of Winchester, brought their son to Passavant hospital Tuesday, where he will undergo an operation for appendicitis.

Mrs. Mary Day, who has been ill at her home on North Diamond street for some time, is very low.

James Landreth received a message Tuesday evening announcing that his brother, R. J. Landreth had been seriously injured at Barry, Pike county. No particulars as to the nature of the injury were received. Mr. Landreth expects to go to Barry this morning.

Garland & Co. show the big assortment of men's and boys flannel shirts.

ADJUDGED INSANE.

Mrs. Margaret Doolin, living in the south part of the county, and John Doolin, living in the east part of the county, have been adjudged insane and committed to Jacksonville State hospital.
